To populate all the individual forms and fields with multiple special parameters of all the requests would be very time consuming as I might have many potential COI while being a radiologist and therefore working very interdisciplinary. Furthermore, I don't really know which company might be working on which topic as I don’t prescribe any drugs in my hospital. Therefore, I keep this personal COI statement updated and don’t fill any individual COI form in		x	x	x	x	x	x	x
