The purpose of this form is to provide the learners of your CME-CPD activity with information about your other interests that could influence how they receive and understand your work. Each author, speaker or chair should submit a separate form and is responsible for the accuracy and completeness of the submitted information. The form comprises:

Relevant financial activities that might present a potential conflict of interest.

This section asks about your financial relationships with entities in the bio-medical arena that could be perceived to influence, or that give the appearance of potentially influencing, what you wrote/present for the educational activity. You should disclose interactions with ANY entity that could be considered broadly relevant to the work.

Report all sources of revenue paid (or promised to be paid) directly to you or your institution on your behalf over the 36 months prior to the CME-CPD activity. Please note that your interactions that are outside the presented work should also be listed here. If there is any question, it is usually better to disclose a relationship than not to do so.

For grants you have received for work, you should disclose support ONLY from entities that could be perceived to be affected financially by the presented work, such as drug companies, or foundations supported by entities that could be perceived to have a financial stake in the outcome. Public funding sources, such as government agencies, charitable foundations or academic institutions, need not be disclosed. For example, if a government agency sponsored a study in which you have been involved and drugs were provided by a pharmaceutical company, you need only list the pharmaceutical company.

Intellectual Property such as patents and copyrights, whether pending, issued, licensed and/or receiving royalties should also be disclosed.

Relationships not covered above.

The section asks for other relationships or activities that readers could perceive to have influenced, or that give the appearance of potentially influencing, what you present at the CME-CPD activity.

Personal data.

Definitions:

Entity: government agency, foundation, commercial sponsor, academic institution, etc.

Grant: A grant from an entity, generally [but not always] paid to your organization

Personal Fees: Monies paid to you for services rendered, generally honoraria, royalties, or fees for consulting, lectures, speakers bureaus, expert testimony, employment, or other affiliations

Non-Financial Support: Examples include drugs/equipment supplied by the entity, travel paid by the entity, writing assistance, administrative support, etc.

Other: Anything not covered under the previous three boxes

Pending: The patent has been filed but not issued

Issued: The patent has been issued by the agency

Licensed: The patent has been licensed to an entity, whether earning royalties or not

Royalties: Funds are coming in to you or your institution due to your patent
