Institut für Pathologie  
Universitätsklinikum Ulm

**Referenznuklearmedizin**

Prof. Dr. C. Kobe  
Klinik für Nuklearmedizin  
Uniklinik Köln

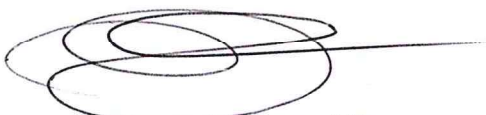

**Declaration of the nature of the grant**

For our forthcoming International Symposium on Hodgkin Lymphoma (ISHL13) to be held between October 26 and 28, 2024, we herewith apply for continuing medical education points for those attending this 3-days conference.

ISHL13 will be supported by the German Research Council (DFG), the Karl Musshoff-Stiftung, the Braun Stiftung as well as industrial sponsors including Takeda International, Bristol-Myers Squibb, BeiGene, MSD, Janssen Cilag, AstraZeneca, Incyte and Astellas. Some of these industrial sponsors finance industry-sponsored symposia. In addition, we will provide some of these companies with exhibition space.

This support does not interfere in any way with the scientific program including a total of 10 scientific sessions as well as seminars and workshops on various topics.

Sincerely,

Peter Borchmann, MD  
Symposium Chairman
