

From Complex Primary to Revision Instructional Course

Programme

Chairmen: TBD

ICLO St. Francis de Sales, Training Centre, Arezzo, Italy
6 - 7 April 2017

Description

This two day course will combine scientific lectures, high-level discussions and hands-on practical cadaver workshops, focusing on the continuum of care in knee surgery, covering both complex primary and revision total knee replacement.

Our expert faculty will cover the latest research, scientific data, and surgical tips and tricks to ensure an optimal learning experience during the course.

The exposure to contemporary complex primary and revision knee systems, and the appropriate surgical techniques, should allow delegates to leave the course feeling better equipped to face the various clinical challenges presented during their practice.

Learning objectives

Enable delegates to:

- Gain an understanding of the core principles underlying complex primary and revision knee surgery
- Understand the latest scientific data that supports different techniques in the field of complex primary and revision TKA
- Learn about the appropriate surgical techniques for the LEGION[°] Primary, LEGION[°] Revision, LEGION[°] Hinge and RT-PLUS[°] systems
- Gain awareness of the additional associated considerations for revision surgery such as pre-operative planning and patient selection

Participant profile

- Both newly qualified HCPs and senior consultants with a general interest in complex primary and revision knee replacement
- HCPs with currently limited experience in revision knee surgery, looking to build the confidence to expand their practice
- A good level of competency in English is required
