

Regional Medical Update Dinner on Current & Future Treatments

15 March 2017

Welcome: 6:30 PM

Dinner & Presentations: 7:00 PM

NH Conference Centre Leeuwenhorst

Langelaan 3 2211 XT

Noordwijkerhout, Netherlands

+31 (0)252 378433

TOPICS INCLUDE

1. Benefit/Risk Strategies in Selecting Therapeutic Solutions for MS: HCP and Patient Viewpoints
2. Therapeutic MOAs in MS: Targeting T- and B-cells to reset the immune system, including immunosuppression
3. Simplifying the MS Patient's Journey

The meeting includes:

- Scientific sessions
- Educational materials
- Dinner
- Certificate of attendance

FOR MORE DETAILS ON THE PROGRAM, VISIT: www.globalmultiplesclerosisacademy.org

TARGET AUDIENCE

This course is designed to meet the Continuing Medical Education needs of practicing healthcare professionals engaged in the treatment of patients with multiple sclerosis.

ACKNOWLEDGEMENT OF COMMERCIAL SUPPORT

This activity is supported by an independent educational grant from Merck KGaA, Darmstadt, Germany.

LANGUAGE

The official language of the symposium will be Dutch.

COURSE OBJECTIVES

- Review the benefit/risk strategies in selecting therapeutic solutions for patients with MS, while assessing favorable treatment regimen that carry acceptable or diminished risk of disease progression.
- Explore emergent concepts in the management of MS, focusing on targeting T- and B-cells including
 - risks associated with continuous immunosuppression
 - evidence of direct action on the inflammatory activity in the CNS compartment
- Identify strategies that simplify patient dosing, side effects to increase treatment compliance, improve patient's quality of life and slow disease progression.
