This educational day will highlight and discuss the latest thinking around standard of care treatment regimens across therapeutic classes in Renal Cell Carcinoma, Non-Small Cell Lung Cancer or Metastatic Breast Cancer.

Renal Cell Carcinoma: Standard treatments in first-line and second-line metastatic RCC; how to optimize therapy management and the choice of targeted and IO agents throughout the treatment continuum.

Main speaker: Dr. Eric Jonasch, MD Anderson Cancer Center, Houston, USA

Non-Small Cell Lung Cancer: Treatment sequencing approaches and testing algorithms for previously untreated and recurrent ALK-, EGFR-, ROS1- and PD-L1-positive NSCLC.

Main speaker: Dr. Federico Cappuzzo, Onco-Hematology Department, AUSL Romagna, Ravenna, Italy.

Metastatic Breast Cancer: Current treatment options and evolving role of CDK inhibition in combination with endocrine therapy for first- and second-line HR+/HER2- mBC.

Main speaker: Dr. Elizabeth Comen, Memorial Sloan-Kettering Cancer Center, New York, USA.

Best regards,

Dr. Thomas Wahlgren
