NEW TRENDS IN THE PREVENTION OF RUNNING INJURIES

by Jean-François Esculier

This training course has been delivered over 100 times, on all five continents and has taken thousands of health professionals by storm.

Developed from the most recent scientific evidence available, it questions several current unjustified practices. Local contacts, registration as a Specialist on The Running Clinic website and monthly literature reviews are but a few of the little extras that will make this 18 hour high-quality training all the more worthwhile.
