DIAGNOSIS AND TREATMENT OF RUNNING INJURIES: PRACTICAL ASPECTS

by Jean-François Esculier

One-day practical course, complementary to the 2-day course "New Trends in the Prevention of Running Injuries", that exposes diagnostic tests and treatment modalities used by experts.

The course 1.0 is a prerequisite for this course.

20 pathologies, some science, a lot of practical application and several new ideas to better guide your injured runners patients.

DECEMBER 2ND, 2017
