

Preliminary Program

Thursday, April 19th 2018

13.00 – 14.00 **Welcome Lunch**

14.00 – 14.15 **Welcome Address**

Mette Strand, Pfizer, Denmark &
Jens Otto Lunde Jørgensen, Aarhus, Denmark

14.15 – 15.00 **Lecture**

Chair: Jens Otto Lunde Jørgensen, Denmark

Atypical pituitary adenomas: a meaningful entity?

Dominique Maiter, Belgium

15.00 – 16.00 **Short Communications (I)**

Chairs: Patrick Petrossians, Belgium & Marianne Klose, Denmark

Mutations in DNA mismatch repair proteins - a novel cause of hereditary pituitary tumors?

Daniel Bengtsson, Sweden

Gene expression profiles in fast- vs. slow-growing non-functioning pituitary adenomas

Camilla Maria Falch, Norway

Neuroendocrine phenotype and genetics in patients with congenital hypogonadotropic hypogonadism: a multicenter Belgian study

Hernan Valdes-Socin, Belgium

A new cause of drug-induced hypophysitis

Laura Orioli, Belgium

16.00 – 16.30 **Coffee Break**

16.30 – 17.30

Short Communications (II)

Chairs:

Oskar Ragnarsson, Sweden & Sophie Bensing, Sweden

*Effectiveness of medical treatment for Cushing's syndrome
– a systematic review and meta-analysis*

Leonie Broersen, The Netherlands

The plasticity of the somatotrophic axis

Mark Postma, the Netherlands

2 Presentations TBD

17.30 – 18.15

Lecture

Chair:

Alberto Pereira, The Netherlands

Non-functioning pituitary adenomas; growth and aggressiveness

Kristin Astrid Berland Øystese, Norway

20.00

Dinner

Friday, April 20th 2018

08.30 – 09.15

Lecture

Chair:

Marie Bex, Belgium

Cabergoline vs. selective adenomectomy in prolactinoma

Nienke R Biermasz, The Netherlands

09.15 – 10.15

Short Communications (III)

Chairs:

André P. van Beek, The Netherlands &
Nicoleta Cristina Olarescu, Norway

TDI in patients with craniopharyngioma

Sigridur Fjalldal, Sweden

Time trends in mortality in patients with pituitary adenomas

Daniel Olsson, Sweden

2 presentations TBD

10.15 – 11.00

Lecture

Chair:

Jens Bollerslev, Norway

Resistance to medical treatment - what are the mechanisms?

Pia Burman, Sweden

11.00 – 11.30

Coffee Break

11.30 – 12.30

Short Communications (IV)

Chairs:

Per Dahlqvist, Sweden & Bernard Corvilain, Belgium

Body Composition in acromegaly before and after cure

Mai Christiansen Arlien-Søborg, Denmark

Adipose tissue histology in patients with acromegaly

Amanda Bæk, Denmark

The incretin effect and gastrointestinal mediated glucose disposal in cranially irradiated patients with acromegaly

Nanna Thurmann Jørgensen, Denmark

1 presentation TBD

12.30 – 13.15

Lecture

Chair:

Gudmundur Johannsson, Sweden

Endocrine consequences of stereotactic radiotherapy of pituitary tumors: a clinical audit

Ulla Feldt-Rasmussen

13.15

End of Meeting – Boxed Lunch

Jens Otto Lunde Jørgensen, Denmark
