

ArcheoloGIST Summit IX

Working together to improve outcomes in GIST

Invitation

The Imperial Riding School
Renaissance Vienna Hotel,
Vienna, Austria

10–11 May 2018

A 2-day scientific, interactive, case-study based meeting on
the management of gastrointestinal stromal tumours (GIST)

www.pfizer.com

This meeting is organised and funded by Pfizer

December 2017; PP-SUT-NLD-0099

Dear Colleague,

We are delighted to invite you to attend ArcheoloGIST Summit IX, an established Pfizer-sponsored initiative providing healthcare professionals from across the International Developed Markets with an interactive forum to discuss practical aspects of the management of GIST.

The scientific principles of archaeology will be applied to GIST; in the ArcheoloGIST Summit IX we will delve into the past (respice) to allow better understanding of the present (adspice) and future (prospice) management of patients with GIST.

Guided by an expert faculty, ArcheoloGIST Summit IX will provide the opportunity to exchange scientific research, share personal experiences and discuss key topics. We will review the latest advances at the forefront of GIST management, while looking to the future, asking how this might evolve to provide the very best in patient care. Additionally, we will discuss adjuvant therapy and new systemic agents for the management of GIST patients.

An important element of the ArcheoloGIST meeting series is interactivity. Through this event, we provide a platform for sharing knowledge and experience within the GIST community. As such, we invite you to submit a clinical case study – those selected by the faculty will be presented and discussed at the meeting. An award will be given for the case voted to be as the most clinically interesting. Further information on how to submit your clinical case study can be found later in this invitation.

We hope that you can join us for what promises to be a highly educational and engaging event.

Pfizer Oncology GI Team

FACULTY

Paolo Casali

Istituto Nazionale dei Tumori, Milan, Italy

Axel Le Cesne

Institut Gustave Roussy, Villejuif, France

Angelo Paolo Dei Tos

General Hospital of Treviso, Treviso, Italy

Robin Jones

The Royal Marsden Foundation Trust, London, United Kingdom

Piotr Rutkowski

Maria Skłodowska-Curie Memorial Cancer Center and Institute of Oncology, Warsaw, Poland

GUEST SPEAKER

Robert Maki

Monter Cancer Center / Northwell Health, Lake Success, New York, USA;
Cold Spring Harbor Laboratory, Cold Spring Harbor, New York, USA

PROGRAMME

Day 1: Thursday 10 May

- 13:00** **Welcome & introduction**
Pfizer Oncology & Paolo Casali (Italy)
- 13:15** **Keynote lecture**
Robert Maki (USA)
- 14:00** **Advances in metastatic GIST: Updates from the last 12 months**
Axel Le Cesne (France)
- 14:30** **Break**
- 15:00** **A focus on adjuvant therapy**
Paolo Casali (Italy)
- 15:35** **New systemic agents for the treatment of GIST patients**
Robin Jones (UK)
- 16:05** **Break**
- 16:35** **Clinical cases – Session 1**
Moderator: Piotr Rutkowski (Poland)
- 17:35** **Summary of day 1**
Paolo Casali (Italy)
- 17:50** **Day 1 close**

Day 2: Friday 11 May

- 09:00** **Welcome to day 2**
Robin Jones (UK)
- 09:15** **Challenge your pathologist**
Angelo Paolo Dei Tos (Italy)
- 09:45** **How can we optimise patient care?
Therapy & side-effect management**
Axel Le Cesne (France)
- 10:15** **Break**
- 10:45** **Clinical cases – Session 2**
Moderator: Angelo Paolo Dei Tos (Italy)
- 11:45** **Multidisciplinary team approach to real-life complex clinical cases**
Moderator: Robin Jones (UK)
- 12:55** **Summary of day 2**
Robin Jones (UK)
- 13:00** **Meeting close**

CASE SUBMISSION

Please submit a clinical case that may illustrate:

- Differential diagnosis of GIST
- The role of surgery in the management of advanced GIST
- The use of mutational analysis to support treatment selection
- Therapy management with TKI treatment

Using the template provided, please submit cases by:

- Filling in all available details in the slide template
- Inserting supportive materials, such as scans / figures, to further illustrate the clinical case being submitted
- Including questions at appropriate points in your presentation to optimise audience engagement

Please send your cases to archeologistix@synergymedical.co.uk by 2 April 2018.

Your submission will then be reviewed by the faculty.

If required, assistance with slide preparation can be provided by Synergy Medical Communications. A teleconference can be arranged in advance of the meeting to provide you with an opportunity to discuss your case study and the arrangements for your presentation.

Please note that submitted cases will be sent to the local adverse event reporting service and you may be contacted for further information if the case has not been previously reported.
