

# Programme 13 February

07.00-08.30	Registration participants	Registration desk
08.30-10.00	<b>Theme 1: how to handle (prevention of )coronary thrombosis</b> Moderators: <i>Pieter Reitsma, Yvonne Henskens</i> <i>Arnoud van t Hof</i> : developments in management of ACS <i>Wolfgang Bergmeier</i> : regulators of platelet adhesion and inflammation <i>Robert Storey</i> : how to improve secondary prevention after coronary thrombosis? <i>Steve Watson</i> : new mechanisms in platelet mediated thrombosis <i>John Morser</i> : complement activated coagulation in vascular disease	
10.00-10.30	<b>Coffee break</b>	Exhibition area
10.30-11.30	<b>Workshops</b> <i>Arnoud van t Hof</i> <i>Wolfgang Bergmeier</i> <i>Robert Storey</i> <i>Steve Watson</i> <i>John Morser</i>	
11.30-12.00	<b>Short break</b>	Exhibition area
12.00-13.00	Consensus discussion	
13.00-14.00	<b>Lunch</b>	Exhibition area
14.00-15.30	<b>Theme 2: Peripheral artery disease: a thrombo-inflammatory disorder?</b> Moderators: <i>Henri Spronk, Paola van der Meijden</i> <i>Christina Espinola Klein</i> : PAD: where do guidelines lead us? <i>Henri Spronk</i> : anticoagulants and their impact on atherosclerosis <i>Jeff Weitz</i> : how to tackle thrombo-inflammation? <i>Leon Schurgers</i> : vascular inflammation, calcification and fibrosis <i>Oliver Soehnlein</i> : the impact of bonemarrow on atherogenesis and -thrombosis	
15.30-16.00	<b>Coffee break</b>	Exhibition area
16.00-17.00	<b>Workshops</b> <i>Christina Espinola Klein</i> <i>Henri Spronk</i> <i>Jeff Weitz</i> <i>Leon Schurgers</i> <i>Oliver Soehnlein</i>	
17.00-17.30	<b>Short Break</b>	Exhibition area
17.30-18.30	Consensus discussion	
18.30-19.30	<b>Welcome reception</b>	Crowne Plaza

# Programme 14 February

08.30-10.00	<b>Theme 3: ischemia-reperfusion injury: implications for stroke</b> Moderators: <i>Heleen van Beusekom, Harry Crijns</i> <i>Bob Siegerink</i> : Ischemic Stroke: An acute, heterogeneous, thrombo-inflammatory disease with chronic implications <i>Lisa Jennings</i> : pleiotropy of antiplatelet agents: impact on IR injury? <i>Sacha Zeerleder</i> : nucleosomes, NETs, DNAses and vascular injury <i>Bernhard Lammle</i> : microvascular angiopathies and I/R injury <i>Annika Lundström</i> : microvesicles and thrombin generation variables as risk markers after ischemic stroke or TIA	
10.00-10.30	<b>Coffee break</b>	Exhibition area
10.30-11.30	<b>Workshops</b> <i>Bob Siegerink</i> <i>Lisa Jennings</i> <i>Sacha Zeerleder</i> <i>Bernhard Lammle</i> <i>Annika Lindstrom</i>	
11.30-12.00	<b>Short break</b>	Exhibition area
12.00-13.00	Consensus discussion	
13.00-14.00	<b>Lunch</b>	Exhibition area
14.00-15.30	<b>Theme 4: venous thromboembolism: late complications and association with arterial vascular disease?</b> Moderators: <i>Harry Buller, Arina ten Cate</i> <i>Monika Stoll</i> : genetics in (recurrent) venous thrombosis <i>Christian Becker</i> : the role of leukocyte populations in thrombosis <i>Erik Klok</i> : pulmonary embolism and CETPH: how to improve outcomes? <i>Audrey Cleuren</i> : vascular bed specific variation in endothelial cell reactivity <i>Peter Henke</i> : thrombus resolution and post-thrombotic syndrome	
15.30-16.00	<b>Coffee break</b>	Exhibition area
16.00-17.00	<b>Workshops</b> <i>Monika Stoll</i> <i>Christian Becker</i> <i>Audrey Cleuren</i> <i>Erik Klok</i> <i>Peter Henke</i>	
17.00-17.30	<b>Short break</b>	Exhibition area
17.30-18.30	Consensus discussion	
19.30	<b>Social Event</b>	

# Programme 15 February

- 08.30-10.30** **Plenary symposium: hot topics; moderators Harry Crijs and Anna Falanga**  
*Christoph Bode*: the new era of antithrombotic management  
*Pier Mannuccio Mannucci* : the role of air pollution in cardiovascular disease  
*Nigel Mackman*: tissue factor and microvesicles in thrombo-inflammatory disorders  
*Christian Weber*: atherosclerosis anno 2020  
*Agnetha Siegbahn*: biomarkers: promises or deliverables?
- 10.30-11.00** **Coffee break**
- 11.00-12.00** **Plenary session**  
**Presentation of Consensus Outcome**
