

Day 1 - November 30, 2018

13:00 - 13:30 Welcome and Opening Remarks
Prof. dr. Brian Frier, chair of the meeting

Session 1: Type 2 Diabetes Mellitus

13:30 - 14:30 **Update on Cardiovascular Outcomes Trials**
Prof. dr. Guntram Schernthaner

14:30 - 15:45 **Debate: Choice of therapy when basal insulin is not enough**
SGLT-2 inhibitor - Prof. dr. Guntram Schernthaner
GLP-1 RA - Prof. dr. Francesco Giorgino
Mealtime insulin - Prof. dr. Christophe de Block

15:45 - 16:00 Break

16:00 - 17:15 Interactive Flash Clinical Case Workshops:
Positioning of new medications in complex and specific situations
Prof. dr. Guntram Schernthaner
Beyond Oral Therapy: GLP-1 RA's and fixed-dose combinations
Prof. dr. Francesco Giorgino

17:15 - 17:45 **Expectations from New and Developing Rapid Acting Insulins**
Prof. dr. Christophe De Block

17:45 - 18:00 Summary and Closing Remarks
Prof. dr. Brian Frier

Day 2 - December 1, 2018

Session 2: Type 1 and Type 2 Diabetes Mellitus

09:00 - 09:30 **Updated EASD Guidelines: Impact on Diabetes Management**

09:30 - 10:00 **Risk markers for diabetic complications**
Prof. dr. Ulf Smith

10:00 - 12:30 Interactive Flash Workshops:

10:00 - 10:30 **Nephroprotection with T2DM therapy** - speaker tbd

10:30 - 11:00 **Cognitive dysfunction in T2DM** - speaker tbd

11:00 - 11:15 Break

11:15 - 11:45 **Hypoglycemia and exercise** - speaker tbd

11:45 - 12:30 **Novel approaches to hypoglycemia management** - Prof. dr. Brian Frier

12:30 - 13:00 **Diabetes and Technology:**
Use of today's technology for clinical decision making
Prof. dr. Eric Renard

13:00 - 14:00 Lunch

Session 3: Type 1 Diabetes Mellitus

14:00 - 15:00 **Debate: SGLT2 inhibitors should be approved and used for T1DM**
Prof. dr. Guntram Schernthaner

15:00 - 15:30 **Open Topic**
Speaker tbd

15:30 - 16:00 **On the etiology of Type 1 Diabetes:**
Lessons learned from the human pancreas
Prof. dr. Olle Korsgren

16:00 - 16:15 Takeaway and Closing
