

Program

AOTRAUMA Course - Tibia Plateau and Pilon

Workshop on anatomical specimen

**March 20 & 21 2017
Rotterdam, The Netherlands**

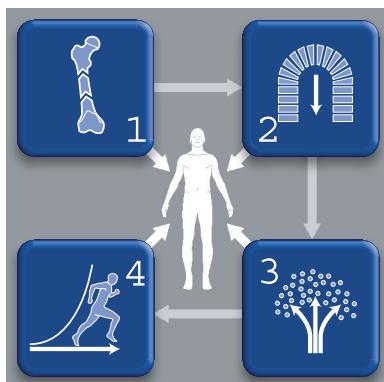

Value statement

AOTrauma is committed to improve patient care outcomes through the highest quality education. We strive to combine the right knowledge and surgical skills that empower the orthopaedic- and trauma-surgeons to put theory into practice and to improve fracture management for the benefit of the patient.

The AO Principles of fracture management

Fracture reduction and fixation to restore anatomical relationships.

Fracture fixation providing absolute or relative stability, as required by the "personality" of the fracture, the patient and the injury.

Preservation of the blood-supply to soft tissues and bone by gentle reduction techniques and careful handling.

Aim of the course

The first AO Course was held in Davos in 1960-these early courses pioneered psychomotor techniques by teaching practical skills of AO Techniques. Since those early days over 250,000 surgeons and 135,000 ORP staff from over 110 countries have attended AO Courses. We now launch AOTrauma to move our education to the next level.

This course is at a Master level and consists of two one day modules.

The latest insights in diagnosis, classification and surgical treatment of tibia plateau and pilon fractures are reviewed. Besides lectures and video presentations, patient cases will be discussed in small groups. The theoretic teachings will be put into practice by each participant on anatomical preparations. After this course any posterior approach to the proximal tibia or pilon holds no secrets for you. It is a course full of 'pearls and pitfalls'. At the end of the course you will not only know how to act, you can do it too.

Monday, March 20th, 2017, Tibial plateau fractures

TIME	TOPIC	WHO
07.45	Registration	
08.00	Introduction	Michael Verhofstad
08.15	Case discussion groups - group 1 - group 2 - group 3	Karl Heinz Frosch/Dirk-Jan Hofstee Peter Kloen/Martin Poeze Rutger Zuurmond/Dagmar Vos
09.30	Coffee break	
	Recent advances in	Moderator Dirk-Jan Hofstee
10.00	- anatomy and biomechanics	Dirk-Jan Hofstee
10.20	- clinical evaluation, imaging and classification	Dagmar Vos
10.40	- specific surgical approaches	Karl Heinz Frosch
11.10	- reduction and osteosynthesis	Michael Verhofstad
11.30	Discussion	
11.45	Anatomical specimen workshop - Anterolateral and anteromedial approach - Posteromedial approach	Moderator Michael Verhofstad Jan Bernard Sintenie Martin Poeze
12.50	Lunch	
13.45	Anatomical specimen workshop (continued) - Posterior approach – medial and lateral column - Posterolateral approach with and without fibular osteotomy	Michael Verhofstad Karl Heinz Frosch
15.10	Coffee break	
	Typical situations	Moderator Dirk-Jan Hofstee
15.40	- Early revision of tibial plateau osteosynthesis	Peter Kloen
16.00	- Role of biomaterials in the proximal tibia	Martin Poeze
16.20	- Fracture dislocations and luxations of the knee	Karl Heinz Frosch
16.40	- Failures after osteosynthesis	Rutger Zuurmond
17.00	Discussion	
17.15	Summary, take home messages and commitment to change practice	Michael Verhofstad
19.00	Course dinner	

Tuesday, March 21st, 2017, Pilon fractures

TIME	TOPIC	WHO
08.00	Introduction	Dirk-Jan Hofstee
08.10	Case discussion groups - group 1 - group 2 - group 3	Peter Kloen/Jan Bernard Sintenie Martin Poeze/Karl Heinz Frosch Michael Verhofstad/Dagmar Vos
09.30	Coffee break	
	Recent advances in	Moderator Jan Bernard Sintenie
10.00	- anatomy and biomechanics	Rutger Zuurmond
10.20	- clinical evaluation, imaging and classification	Peter Kloen
10.40	- specific surgical approaches	Martin Poeze
11.00	- reduction and osteosynthesis	Dagmar Vos
11.20	- posterior malleolus	Michael Verhofstad
11.40	Discussion	
12.00	Lunch	
13.00	Anatomical specimen workshop - Anterolateral approach (supine) - Anteromedial approach (supine) - Posterolateral approach (lateral decubitus) - Posteromedial approach (lateral decubitus)	Moderator Dirk-Jan Hofstee Martin Poeze Jan Bernard Sintenie Peter Kloen Dirk-Jan Hofstee
15.00	Coffee break	
	Typical situations	Moderator Michael Verhofstad
15.30	- Early and late complications and their treatment	Peter Kloen
15.50	- Open distal tibia fractures	Dagmar Vos
16.10	Difficult cases from participants - interactive discussion	Dirk-Jan Hofstee
16.45	Summary, take home messages and commitment to change practice	Dirk-Jan Hofstee

Information

Registration

www.aotrauma.org

Registration fee

€ 995 incl. hotel
€ 895,50 incl. hotel for AOTrauma members

Registration fee includes

Hotel accommodation, coffee, tea, lunches
dinner and certificate

Accreditation

Dutch Association of Surgeons (NVvH): 14 points
Dutch Orthopedic Association (NOV): 14 points

Mobile phone

Please note that it is not allowed to use
portable telephones in the lecture hall.

Security

It is a compulsory to wear your badge during
the course.

Intellectual property

Presentations and case studies are the
intellectual property of the course faculty.

Cancellation

Cancellation fee is 50% until 30 days before
the course. No refund thereafter.

Insurance

There is no insurance effected by the organizers
to cover participants against accidents or other risks.
Personal belongings left in the hotel are the
responsibility of the individual participant.

Language

English/Dutch
