

Sunday, September 2, 2018

ROOM:	Elicium	Auditorium	Forum	E104-107	G102-103	G104-105	G106-107	E102	D203-204
10:00-14:30	Satellite Meetings								
15:00-15:15	Welcome Words								
15:15-15:30	Late Breaking Hot Topic 1	Late Breaking Hot Topic 2							
15:30-16:15	Keynote Lecture KL.01 Serendipities of acquired immunity Tasuku Honjo	Keynote Lecture KL.02 Trained immunity: Reprogramming innate immunity to protect against infections Mihai Netea							
16:15-16:30	Time to change rooms								
16:30-17:45	Symposium S.E1 Visualizing immune responses Track E	Symposium S.C1 Maintenance and local regulation of tissue specific immunity Track C	Educational Session EDU.01 Systems Biology	Workshop WS.D4.01 Protective mechanisms for microbial pathogens Track D	Workshop WS.B2.01 Environmental regulation of anti-tumor responses Track B	Workshop WS.A5.01 Innate effectors in the onset of immune responses Track A	Workshop WS.A1.01 Myeloid lineage specifications Track A	Workshop WS.C4.01 Manipulation of tolerogenic pathways Track C	
17:45-18:00	Time to change rooms								
18:00-19:00	Opening Ceremony Immunology Quiz								
19:15-21:00	Welcome Reception								

Monday, September 3, 2018

ROOM:	Elicium	Auditorium	Forum	E104-107	G102-103	G104-105	G106-107	E102	D203-204	
08:30-09:45	Symposium S.B1 Tumor vaccination principles and immunotherapy Track B	Symposium S.A1 Myeloid lineage specification Track A	Men and Women in Immunology MWI.01	Workshop WS.A4.01 Germinal center reactions Track A	Workshop WS.C1.01 Regulation in tissue specific autoimmunity 1 Track C	Workshop WS.D4.02 Responses to mucosal microbial pathogens Track D	Workshop WS.C3.01 Transplantation - pathogenesis and early diagnosis Track C	Workshop WS.A6.01 Lessons learned from genetic defects Track A	Hands-on Workshop Dynamic Modelling Paradoxes in intracellular immune signalling Part 1	
09:45-10:15	Coffee Break (Exhibition Halls)									
10:15-11:30	Bright Sparks Workshop BS.A.01 Track A	Bright Sparks Workshop BS.B.01 Track B	Educational Session EDU.02 The utility of theories in Immunology	ACTERIA Prizes awarded by EFIS & Ita Askonas Awards Ceremony	Workshop WS.A3.01 Immunobiomarkers in autoimmunity and beyond Track A	Workshop WS.E2E3.01 Single cells to population dynamics and handling Big Data Track E	Workshop WS.B3.01 Molecular regulation of T cell responses Track B	Workshop WS.C4.02 Manipulation of Tolerance by FoxP3+T Regs Track C	Hands-on Workshop Dynamic Modelling Paradoxes in intracellular immune signalling Part 2	
11:30-11:45	Time to change rooms									
11:45-12:00	Late Breaking Hot Topic 3	Late Breaking Hot Topic 4								
12:00-12:45	KL.03 Centrosomes and exosomes: Molecular pacemakers of immune synapse and Tcell activation Francisco Sánchez	KL.04 Co-ordination of the local and systemic immune response to infection and injury Judi Allen								
12:45-13:15	Lunch Break (Exhibition Halls)									
13:15-14:30	Joint Symposium JS.01 Trends in Vaccinology IUIS	Joint Symposium JS.02 Systems Immunology for stratifying patients with autoimmune diseases EULAR	Joint Symposium JS.03 Antigen Presentation in Health and Disease AAI	Joint Symposium JS.04 HLA in Transplantation and Autoimmunity EFI	Industry Sponsored Lunch Symposium*	Educational Session EDU.03 Immunology of Extracellular Vesicles	Industry Sponsored Lunch Symposium*	Joint Symposium JS.05 Combinatorial approaches to develop targeted immunotherapeutics GEO-RUS		
14:30-14:45	Time to change rooms									
14:45-16:00	Symposium S.C2 Immune signaling and therapy in autoimmunity Track C	Symposium S.D1 Microbiome, metabolites, and the immune system Track D	Symposium S.A2 Immune development and aging from the cradle to the grave Track A	Workshop WS.B1.01 Immune checkpoints in anti-tumor therapy Track B	Workshop WS.A5.02 Early Tcell functions in immune responses Track A	Workshop WS.B2.02 Tumor immune surveillance and evasion Track B	Workshop WS.D3.01 Novel vaccine approaches to intracellular pathogens Track D	Workshop WS.D2.01 Molecular properties of NK cells Track D	Hands-on Workshop Analyzing Big Data Integrating time dependent RNA-seq with public data Part 1	
16:00-16:30	Coffee Break (Exhibition halls)									
16:30-17:45	Symposium S.D2 Innate lymphoid cells a topic of debate Track D	Symposium S.B2 Environmental regulation antitumor responses Track B	Symposium S.A3 Immunomonitoring and biomarkers Track A	Workshop WS.C5.01 Physiopathology of allergic disorders Track C	Workshop WS.A5.03 DC and tissue-derived cellular responses Track A	Workshop WS.E4.01 Cell communication and signaling in the immune system Track E	Workshop WS.D4.03 Immune sensing of microbial infections Track D	Workshop WS.A2.01 T cells in aging Track A	Hands-on Workshop Analyzing Big Data Integrating timedependent RNA-seq with public date Part 2	
17:45-18:00	Time to change rooms									
18:00-19:30	Guided Poster Session (Exhibition Halls)				Industry Sponsored Evening Symposium*	Industry Sponsored Evening Symposium*	Industry Sponsored Evening Symposium*	Industry Sponsored Progress in Technology*		

* Please see the category "Sponsors and Exhibitors" in your program for more information.

Tuesday, September 4, 2018

ROOM:	Elicium	Auditorium	Forum	E104-107	G102-103	G104-105	G106-107	E102	D203-204
08:30-09:45	Symposium S.B3 The Yin and Yang of Tcell regulation	Symposium S.A4 Germinal centers and B cell differentiation	Workshop WS.D4.04 Virus-host interactions	Workshop WS.C6.01 Acquired immunity crosstalk with inflammation	Workshop WS.C2.01 Signaling in autoimmunity	Workshop WS.B2.03 Innate anti-tumor immunity	Workshop WS.C5.02 Immunotherapy of allergic disorders	Workshop WS.E1.01 Visualizing immune responses	Hands-on Workshop Analyzing Big Data Integrating multi-omics with immune parameter Part 1
	Track B	Track A	Track D	Track C	Track C	Track B	Track C	Track E	
09:45-10:15	Coffee Break (Exhibition Halls)								
10:15-11:30	Bright Sparks Workshop BS.C.01	Bright Sparks Workshop BS.D.01	Workshop WS.A3.02 Biomarkers of adaptive immunity	Workshop WS.B1.02 Novel targets in anti-cancer immune therapy	Workshop WS.C2.02 Neuroinflammatory disorders	Workshop WS.C1.02 Immune regulation at mucosal sites	Workshop WS.D4.05 Innate adaptive interface during microbial infections	Workshop WS.A2.02 Immune development and neonatal responses	Hands-on Workshop Analyzing Big Data Integrating multi-omics with immune parameter Part 2
	Track C	Track D	Track A	Track B	Track C	Track C	Track D	Track A	
11:30-11:45	Time to change rooms								
11:45-12:00	Late Breaking Hot Topic 5	Late Breaking Hot Topic 6							
12:00-12:45	Keynote Lecture KL.05 Regulatory T-Cell homeostasis Adrian Liston	Keynote Lecture KL.06 T-Cell Metabolism Erika Pearce							
12:45-13:15	Lunch Break (Exhibition Halls)								
13:15-14:30	Joint Symposium JS.06 From immunological insight to prevention of allergy EAACI	Joint Symposium JS.07 Subversion of phagocytosis in innate immunity: from efferocytosis to pathogen interaction SLB	Joint Symposium JS.08 Cytometry building bridges ISAC	Joint Symposium JS.09 The gut microbiota and the IgA antibody production in health and disease SMI	Industry Sponsored Lunch Symposium*	An expert's guide to publishing - sponsored by Wiley	Joint Symposium JS.10 Innate host pathogen interactions JSI	Industry Sponsored Lunch Symposium*	
14:30-14:45	Time to change rooms								
14:45-16:00	Symposium S.A5 Initiation of Immune response	Symposium S.D3 Novel approached to vaccinology	Symposium S.C3 Transplantation	Workshop WS.B1.03 Genetically engineered TCR for immunotherapy	Workshop WS.A3.03 Immune markers in malignancies	Workshop WS.A4.02 Regulation of B cell development and differentiation	Workshop WS.D1.01 Mucosal immune regulation	Workshop WS.A2.03 Immune cell aging and differentiation	Hands-on Workshop Dynamic Modelling Immune cell networks: Chronic versus acute inflammation Part 1
	Track A	Track D	Track C	Track B	Track A	Track A	Track D	Track A	
16:00-16:30	Coffee Break (Exhibition Halls)								
16:30-17:45	Symposium S.E2 How to handle big data and can we do this?	Symposium S.C4 Manipulation of Tolerance	Symposium S.A6 Lessons learned from genetic defects	Workshop WS.B4.01 Molecular control of T cell activation and exhaustion	Workshop WS.D4.06 Bacterial infections and immune activation	Workshop WS.C6.02 New mediators in inflammation and its resolution	Workshop WS.B1.04 Antigen specificity in anti-tumor immunity	Workshop WS.D2.02 Molecular and cellular features of ILCs	Hands-on Workshop Dynamic Modelling Immune cell networks: Chronic versus acute inflammation Part 2
	Track E	Track C	Track A	Track B	Track D	Track C	Track B	Track D	
17:45-18:00	Time to change rooms								
18:00-19:30	Guided Poster Session (Exhibition Halls)								
20:00-24:00	Networking Event (Strandzuid)								

* Please see the category "Sponsors and Exhibitors" in your program for more information.

Wednesday, September 5, 2018

ROOM:	Elicium	Auditorium	Forum	E104-107	G102-103	G104-105	G106-107	E102	D203-204
08:30-09:45	Symposium S.E3 From single cells to population dynamics Track E	Symposium S.C5 Allergy, asthma and therapy Track C	Workshop WS.B4.02 Targeting checkpoints Track B	Workshop WS.C1.03 Cytokine and transcription factor mediated immune regulation Track C	Workshop WS.D3.02 Novel vaccine approaches for viruses Track D	Workshop WS.B1.05 Anti-tumor immunology Track B	Workshop WS.C1.04 Regulation in tissue specific autoimmunity 2 Track C	Workshop WS.D4.07 Innate immune responses and infection Track D	Hands-on Workshop Dynamic Modelling Making sense of omics data isuing genome wide metabolic maps Part 1
09:45-10:15	Coffee Break (Exhibition Halls)								
10:15-11:45	EFIS President's Symposium EP.01	Guided Poster Session (Exhibition Halls)							Hands-on Workshop Dynamic Modelling Making sense of omics data isuing genome wide metabolic maps Part 2
11:45-12:00	Time to change rooms								
12:00-13:15	Symposium S.B4 T cell activation and exhaustion Track B	Symposium S.D4 Exploiting host pathogen interaction Track D	Workshop WS.C2.03 Pathophysiology of autoimmune diseases Track C	Workshop WS.C6.03 Immune cells in tissue fibrosis Track C	Workshop WS.B1.06 Anti-tumor strategies Track B	Workshop WS.C3.02 T regulatory cells derived and other cellular therapies in transplantation Track C	Workshop WS.D1.02 Innate responses and immune signaling Track D		Hands-on Workshop Analyzing Big Data Integrating omics and immunological parameters with genetic variants Part 1
13:15-13:45	Lunch Break (Exhibition Halls)								
13:45-15:00	Symposium S.C6 Innate control of inflammation and tissue repair Track C	Symposium S.E4 Cell communication and signaling in the immune system Track E	Workshop WS.D1.03 Regulation of effector Immune responses Track D	Workshop WS.C2.04 Therapy of autoimmune disorders Track C	Workshop WS.B3.02 T cell mediated immune regulation in tumors Track B	Workshop WS.B3.03 T cell responses in health and disease Track B	Workshop WS.B2.04 Evolution of immune responses in health and disease Track B		Hands-on Workshop Analyzing Big Data Integrating omics and immunological parameters with genetic variants Part 2
15:00-15:30	Coffee Break (Exhibition Halls)								
15:30-15:45	Late Breaking Hot Topic 7	Late Breaking Hot Topic 8							
15:45-16:30	Keynote Lecture KL.07 Microbiota and cancer therapeutics Laurence Zitvogel	Keynote Lecture KL.08 Challenges and perspectives in control of antibody formation Andreas Radbruch							
16:30-16:45	Time to change rooms								
16:45-17:30	Recap and what's next? Awards
