

Preliminary Program

23rd European Vascular Course

Sunday, March 10

Auditorium 2

Audit	origini 2
	Carotid artery
	Moderators: GJ de Borst, AR Naylor
08h30	Outcome of carotid interventions in vascular registries
	HH Eckstein, Germany
08h50	High risks for stroke in asymptomatic patients
	AR Naylor, UK
09h10	Overview on new developments in carotid stenting: double mesh stents and
	cervical access
	JA Vos, the Netherlands
09h30	
	P Nederkoorn, the Netherlands
09h50	
	and MR DWI lesions
	L Bonati, Switzerland
10h10	
	troponine
	W van Klei, the Netherlands
10h30	BREAK
	Aorta
	Moderators: M Jacobs, G Melissano
11h00	The fate of the left subclavian and vertebral arteries in TEVAR
	T Kölbel, Germany
11h20	What to do with the septum in acute and chronic aortic dissection?
	GW Schurink, the Netherlands
11h40	
	G Oderich, USA
12h00	
	repair
	E Verhoeven, Germany
12h20	Diagnostics and treatment of traumatic aortic lesions
	J Schmidli, Switzerland
I2h40	Open surgery after frozen elephant and TEVAR procedures
	M Jacobs, the Netherlands
13h00	LUNCH

Auditorium 2

	Peripheral		
	Moderators: N Chakfe, R Hir	chliffe	
14h00	Lipid therapy in patients v	with PAD	
	B Kroon, the Netherlands		
14h20	Medical therapy in patient	ts with PAD	
	P Coughlin, UK		
14h40	Peri-operative manageme	nt of anti-coagulation	
	K Breen, UK		
15h00	The role of population-ba	used screening for vascula	ır disease
	J Lindholt, Denmark		
15h20	Setting up a comprehensi	ve diabetes limb salvage s	service
	A Weale, UK		
15h40	Update on PAD classifica	tions	
	R Hinchliffe, UK		
16h00	BREAK		
16h30	Case discussions on carotid, peripheral arteries and aorta		
	Carotid	Peripheral	Aorta
	Room 2.7 level 2	Room 2.9 level 2	Room 0.11 level 0
	AR Naylor	R Hinchliffe	T Resch
	GJ de Borst	A Mansilha	GW Schurink
18h00	COCKTAIL		

4

Arterial Course 2019

Room 0.11. level 0

EVerhoeven T Resch

Monday, March II

Auditorium 2

13h00 LUNCH

Arterial Course 2019

Audit	orium 2
	Peripheral arteries
	Moderators: J van den Berg, R Hinchliffe
08h30	What you should know about intimal hyperplasia and its treatment options
	S Deglise, Switzerland
08h50	What you should know about peripheral stent, catheter and guidewires prop-
	erties
	N Chakfe, France
09h10	What should we know about prosthetic grafts for peripheral revasculariza-
	tions
	W Dorigo, Italy
09h30	Anatomical exposures, techniques and tricks in complex distal bypass proce-
	dures
	A Albäck, Finland
09h50	Vein arterialization for limb salvage
	K Houlind, Denmark
10h10	The role of atherectomy in the endovascular treatment of PAD
	M Lichtenberg, Germany
10h30	BREAK
	Carotid artery
	Moderators: GJ de Borst, AR Naylor
11h00	Imaging carotid disease: from the aortic arch atherosclerosis to cerebral
	white matter lesions
	A van der Lugt, the Netherlands
11h20	Rescue management for procedural stroke following carotid stenting
	JA Vos, the Netherlands
11h40	Rescue management for procedural stroke following carotid endarterectomy
	GJ de Borst, the Netherlands
12h00	3D SURGICAL MOVIES

Monday, March II

Room 2.7 level 2

JW Daemen

AR Naylor

Auditorium 2

	orium 2
	Aorta
	Moderator: G Oderich, B Mees
14h00	Management of aortic fistulae
	G Melissano, Italy
14h20	Vascular access complications: how to avoid and manage
	B Mees, the Netherlands
14h40	Open surgical reinterventions after EVAR
	X Berard, France
15h00	Endovascular reinterventions after (F)EVAR
	T Resch, Sweden
15h20	How to reduce and avoid radiation complications for the patient and surgeon
	B Modarai, UK
15h40	Evolving strategies for spinal cord protection in complex aortic aneurysm
	repair
	S Haulon, France
16h00	BREAK
16h30	Case discussions on carotid, peripheral arteries and aorta
	Carotid Peripheral Aorta

Room 2.9 level 2

M de Haan

M Ionac

Tuesday, March 12

Auditorium 2

Aorta Moderators: GW Schurink, T Resch 08h30 Management of infrarenal AAA in young and fit patients H Verhagen, the Netherlands 08h50 EVAR in octogenarians J van Herwaarden, the Netherlands 09h10 What is new in perioperative screening and risk management N Dias, Sweden 09h30 Contemporary open aneurysm repair is more difficult than it was before: how to manage W Wisselink, the Netherlands 09h50 Troubleshooting during endovascular repair of the abdominal aorta D Böckler, Germany 10h10 Application of fusion and cone beam CT in aortic repair and reinterventions A Hertault, France 10h30 BREAK Peripheral arteries Moderators: R Hinchliffe, N Chakfe 11h00 Acute mesenteric ischemia: the necessity of an intestine stroke center O Corcos, France 11h20 Endovascular management of acute mesenteric ischemia N Peppelenbosch, the Netherlands 11h40 Colonic ischemia in vascular reconstructions I Koncar, Serbia 12h00 Arterial thrombolysis J van den Berg, Switzerland 12h20 Acute upper limb ischemia E Jean-Baptiste, France 12h40 The burden and management of acute limb ischemia F Cochennec, France	Audit	orium 2

Sunday, March 10

Room 0.4/0.5

1100111	0.17 0.0
	Pelvic Congestive Syndrome Moderators: E Rabe , A Davies
08h30	Suggested questionnaire and classification to evaluate outcome in PCS M Whiteley, UK
08h45	Short and long term outcome after coiling in PCS M Wikkeling, the Netherlands
09h00	Does Ovarian Vein Embolization work for Pelvic Venous Insufficiency: A Multicenter Study P Pappas, USA
09h15	Causes of bad outcome and complications C Arnoldussen, the Netherlands
	Varices Moderators: K Bozkurt, M Gaastra
09h30	Endoluminal treatment of GSV incompetence 2^{nd} choice after crossectomy and stripping? A Davies, UK
09h45	Reimbursement in C1 and C2 SCT is invalid A Krasznai, the Netherlands
10h00	Do QoL changes after varicose vein treatments, predict long term outcome F Catarinella, the Netherlands
10h15	Which techniques/methods/materials are obsolete L Kabnick, USA
10h30	BREAK
	Post Thrombotic Syndrome Moderators: C Wittens, P Pappas
IIh00	Selective compression which parameters used? A ten Cate, the Netherlands
11h15	Do short term innovative results justify general use M Meissner, USA
11h30	Research to improve stent properties H Jalaie, Germany
11h45	Objective measurements influencing outcome IVUS/phlebography/MRV/ Duplex/pressure measurements A Davies, UK

Arterial Course 2019

Sunday, March 10

Room 0.4/0.5

	Anticoagulation Moderators: H alaie, H ten Cate
12h00	Are vitamin-K antagonists obsolete? R Rennenberg, the Netherlands
12h15	Can sc LMWH be replaced by DOAC's in acute and chronic situations M Meissner, USA
12h30	Bleeding risk profiles related to age and indications. H ten Cate, the Netherlands
12h45	Is an antidote necessary? C Wittens, the Netherlands
13h00	LUNCH
13h00	DCoP lunch meeting
14h00	Satellite symposium, cases discussions, workshops
15h30	BREAK
16h00	Satellite symposium, cases discussions, workshops

Monday, March II

Room 0.4/0.5

IXOOIII	0.47 0.5
	Complications in stenting Moderators: P Gloviczki, S Doganci
08h30	Contralateral Deep Vein Thrombosis After Iliac Vein Stenting: A Clear And Present Danger P Gloviczki, USA
08h45	Technical issues; migration, misplacement, jailing in deep venous stenting? H Jalaie, Germany
09h00	In stent stenosis due to? M Barbati, Germany
09h15	Stent failure due to inadequate anticoagulation an issue? J van Laanen, Netherlands
	Deep venous thrombosis
001.20	Moderators: G O'Sullivan, H ten Cate
09h30	Outcome of the CAVA trial P Notten, the Netherlands
09h45	Meta-analysis of CAVA, CAVENT and ATTRACT trials C Wittens, the Netherlands
10h00	Pathophysiology and histochemistry in human DVT A ten Cate, the Netherlands
10h15	Does pre-intervention MRV influence the intervention and outcome? C Arnoldussen, the Netherlands
10h30	BREAK
	Treatment Controversies Moderators: P Gloviczki, H Jalaie
11h00	Vulva varices: does foam sclerotherapy work? I Toonder, the Netherlands
IIhI5	Venous aneurysms, should they be treated? H Jalaie, Germany
11h30	Klippel-Trenaunay, invasive versus conservative treatment options M Dalsing, USA
11h45	Is IVUS the gold standard and is 50% cross-sectional area stenosis the threshold? M de Haan, the Netherlands
12h00	3D SURGICAL MOVIES
13h00	LUNCH
13h00	ECoP lunch meeting
14h00	Satellite symposium, cases discussions, workshops
15h30	BREAK
16h00	Satellite symposium, cases discussions, workshops

Venous Course 2019

Tuesday, March 12

Room 0.4/0.5

ICC meeting: Innovation in compression Moderators: S Gianesini, C Wittens	Room	0.4/0.5
08h30 Connected bandages: which could be the added value in lymphedema treatment JP Belgrado, Belgium 08h50 A smart wrap that applies appropriate pressures for each postural position E Arkans, USA 09h10 An innovative compression system providing low, sustained resting pressure and high, efficient working pressure J Damm, Sweden 09h30 Fast'n go bandage, bridging a gap for self-bandaging and homecare P Gonon, France 09h50 New sensors to measure compression parameters C Wittens, the Netherlands 10h10 Adjustable compression wraps: new data in venous and lymphatic diseases JP Benigni, France 10h30 BREAK Lymphoedema Moderators: M Neuman, E Rabe 11h00 Lymphedema is no diagnosis. New approach towards diagnosis R Damstra, the Netherlands 11h15 The venous component in breast cancer related lymphedema of the hand. L Vandermeeren, Belgium 11h30 Results of 15 years circumferential suction assisted lipectomy in arms and legs. A Lamprou, the Netherlands 11h45 European cooperation in European Reference Network for primary and pediatric lymphedema R Damstra, the Netherlands Upper extremity DVT Moderators: P Gloviczki, C Wittens 12h00 Treatment of upper extremity deep venous thrombosis: conservative vs. surgical. The UTOPIA trial. GJ de Borst, the Netherlands 12h15 Para-clavicular Decompression with Complete First Rib Resection and Flexible Subclavian Vein Reconstruction'' R Thompson, USA 12h30 Trans-axillary Thoracic Outlet Decompression, recanalization, PTA and stenting, J Teijink, Netherlands 12h45 Is stenting after a recanalization and PTA necessary after UEDVT? S Doganci, Turkey		ICC meeting: Innovation in compression
JP Belgrado, Belgium		Moderators: S Gianesini, C Wittens
E Arkans, USA O9h10 An innovative compression system providing low, sustained resting pressure and high, efficient working pressure J Damm, Sweden O9h30 Fast'n go bandage, bridging a gap for self-bandaging and homecare P Gonon, France O9h50 New sensors to measure compression parameters C Wittens, the Netherlands 10h10 Adjustable compression wraps: new data in venous and lymphatic diseases P Benigni, France 10h30 BREAK Lymphoedema Moderators: M Neuman, E Rabe 11h00 Lymphedema is no diagnosis. Venous Course 2019

Room 2.1

Room 2.1		
	Registries of international vascular access practice Moderators: J Tordoir, V Mickley	
08h30	Vascular access patterns in Canada C Lok, Canada	
08h50	VA registry Sweden U Hedin, Sweden	
09h10	Debate:Vascular access practice in Europe is well organized compared to USA Pro:T Wilmink, UK Con: M Glickman, USA	
09h50	Vascular access practice in Germany M Hollenbeck, Germany	
10h10	Dutch VA registry M Snoeijs, the Netherlands	
10h30	BREAK	
11h00	Video session Moderators: W Jennings, T Wilmink	
IIh00	Two-staged basilic vein elevation and transposition W Jennings, USA	
11h20	PAVA for ischemia V Mickley, Germany	
11h40	Cephalic vein superficialization D Shemesh, Israel	
12h00	Case discussions Moderator: V Mickley Panel: S Baktiroglu, S Shenoy, M Gallieni	
13h00	LUNCH	

Room 2.1

	Intervention VA complications
	Moderators: M de Haan, S Baktiroglu
14h00	Update on drug-coated balloons
	P Kitrou, Greece
14h20	VA creation in patients with central vein obstruction
	V Matoussevitch, Germany
14h40	Surgical thrombectomy versus catheter-directed thrombolysis for VA thrombosis;
	which is best
	U Hedin, Sweden
15h00	Stents and stent graft for central vein obstruction
	R Brans, the Netherlands
15h20	Randomized trial of computerized forecast fistula maturation
	N Zonnebeld, the Netherlands
16h00	BREAK
16h30	Case discussions
	Moderator: H Wasse
	Panel: U Hedin, M Hollenbeck, P Kitrou
18h00	COCKTAIL

Vascular Access Course 2019

Vascular Access Course 2019

Monday, March II Combined nurses & physician session

Room 2.1

Room	2.1
	AVF session
	Moderators: M van Loon, C Lok
08h30	SLOT, RADAR, Laminate; any sense for AVF outcome
	S Shenoy, USA
08h50	Strategy for 100% functional AVF
-	T Wilmink, UK
09h10	Ultrasound-guided endoAVF
	A Mallios, France
09h30	Sidebranche ligation to enhance maturation
001.50	D Hentschel, USA
09h50	Autologous AVF in the old, comorbid patient; what do the guidelines recommend C Lok, Canada
10h10	Surgical or endovascular intervention for AVF nonmaturation
101110	H Wasse, USA
10h30	BREAK
IIh00	PD & Video session
	Moderators: N Peppelenbosch, M Gallieni
IIh00	Laparoscopically assisted PD-Catheter Implantation
	A Pasch, Switzerland
11h20	Design and technique PD II trial
	N Peppelenbosch, Netherlands
11h40	Intervention for PD catheter complications
	M Gallieni, Italy
Audit	orium I
12h00	3D SURGICAL MOVIES
13h00	LUNCH
Room	2.1
	AVF session
	Moderators: M van Loon, C Lok
14h00	Pathophysiology of VA induced ischemia
	V Mickley, Germany
14h20	Intraoperative quality control of AVF banding
1.41.40	B Govaert, the Netherlands
14h40	Elbow proximal radial artery AVF prevents ischemia W Jennings, USA
15h00	Arterial inflow dilation for hypoperfusion
	D Shemesh, Israel
15h20	DRIL or PAVA, which is best?
	C Sessa, France
15h40	Wrap up: When is which intervention needed for ischemia
	M Lazarides, Greece
16h00	BREAK

Monday, March II

Room 2.1

16h30	Case discussions
	Moderator: S Lemson
	Panel: M Snoeijs, R Brans, M Weijmer

Tuesday, March 12

Room 2.1

13h00 ADJOURN

Room	2.1
	Graft/catheter session
	Moderators: J Tordoir, M Glickman
08h30	What is new on catheter access
	M Weijmer, the Netherlands
08h50	Salvage of infected prosthetic AVG
	S Baktiroglu, Turkey
09h10	Network meta-analysis of AVG thrombosis treatment
	M Lazarides, Greece
09h30	What is new in biological AVG
	D Hentschel, USA
09h50	Balloon or stent-graft for AVG stenosis
	H Wasse, USA
10h10	Conversion of catheter to non-catheter dialysis improves patient survival
101.20	J Kooman, the Netherlands
10h30	BREAK
Room	
11h00	Innovations
	Moderators: H Wasse, U Hedin
11h00	Vein predilation with the AFE system
	S Shenoy, USA
11h15	First experience with the bone anchored port
	M Widmer, Switzerland
11h30	AVG coatings and configurations
	M Glickman, USA
11h45	Endo AVF; the worldwide experience
	V Matoussevitch, Germany
Room	2.1
12h00	Case discussions (Toblerone session)
	Moderator: M Widmer
	Panel: C Lok, M Lazarides, H Wasse

Sunday, March 10

Room tbd

	Aortic root
	Moderators: E Natour, G Bolotin
08h30	Pathophysiology of aortic aneurysms: why do they not dissect?
	B Rylski, Germany
08h50	Assessment of the aortic root pathophysiology during cardiac surgery
	F Mahmood, USA
09h10	Cardiac anesthesiology in aortic surgery: safeguards and pitfalls
	W Buhre, the Netherlands
09h30	Management of aortic root aneurysms: valve sparing versus Bentall
	E Natour, the Netherlands
09h50	The subvalvular aortic ring: an alternative to the David/Yacoub procedures?
	T Fischlein, Germany
10h10	Management of patient prosthesis mismatch in the small aortic root: total root re-
	placement or enlargement and future TAVI?
	G Bolotin, Israel
10h30	BREAK
	Case discussions on aortic root
	Moderators: T Fischlein, E Natour
IIh00	Interactive case discussions
13h00	LUNCH

Room thd

KOOH	t tbd
	Workshops on aortic root
	Moderators: G Bolotin, R Lorusso, E Natour, T Fischlein
14h00	Valve sparing procedures: David, Yacoub, subvalvular ring
	root enlargement
16h00	BREAK
16h30	Bentall stented/stentless procedures, root enlargement
18h00	COCKTAIL

18

Vascular Access Course 2019

Monday, March II

Room	n tbd
	Ascending aorta and aortic arch
	Moderators: R Di Bartolomeo, M Jacobs
08h30	Management of type A aortic dissection: how to start and where to stop
	R Heijmen, the Netherlands
08h50	Advantages of frozen elephant trunk in aortic arch pathology: when does it make a
	difference
	R Di Bartolomeo, Italy
09h10	Why should we always use selective brain perfusion in open arch replacement?
	M Pichlmaier, Germany
09h30	Total endovascular treatment of aortic arch aneurysms
	S Haulon, France
09h50	Future perspectives of aortic arch replacement
	R Heijmen, the Netherlands
10h10	Aortic arch and descending aortic replacement via left sided thoracotomy
	M Jacobs, the Netherlands
10h30	BREAK
	Case discussions on ascending aorta and aortic arch
	Moderators: E Natour , M Pichlmaier
11h00	Interactive case discussions
12h00	3D SURGICAL MOVIES
13h00	LUNCH

Room tbd	
	Workshops on ascending aorta and aortic arch
	Moderator: R Heijmen, M Pichlmaier, E Natour
I4h00	Cerebral perfusion
	Frozen elephant trunk
16h00	BREAK
16h30	Supra aortic debranching techniques

Tuesday, March 12

Room tbd	
	Advanced workshop on aortic repair
	Moderators: M Tozzi, E Natour
08h30	Treatment on surgical model aortic root
	Coronary ostia
	Supra-aortic artery bypasses
10h30	BREAK
IIh00	Treatment on surgical model
	Total arch and elephant trunk techniques
13h00	ADJOURN

Cardiovascular Course 2019
