Congres Interdisciplinaire Orthodontie

Interdisciplinary Orthodontics

Renato Cocconi

Niko Perakis

donderdag en vrijdag 16 en 17 mei 2019

Heineken Experience

Amsterdam

PROGRAMMA

Donderdag 16 mei 2019

12:30 - 13:30 uur *Ontvangst, registratie, lunch, koffie/thee en opening*

13:30 - 15:00 uur Renato Cocconi and Niko Perakis

15:00 - 15:30 uur *Koffie/thee*

15:30 - 17:00 uur Renato Cocconi and Niko Perakis

17:00 - 18:00 uur *Drankjes en hapjes*

Vrijdag 17 mei 2019

08:30 - 09:00 uur *Registratie, koffie/thee*

09:00 - 10:30 uur Renato Cocconi

10:30 - 11:00 uur *Koffie/thee*

11:00 - 12:30 uur Renato Cocconi

12:30 - 13:30 uur *Lunch*

13:30 - 15:00 uur Renato Cocconi

15:00 - 15:30 uur *Koffie/thee*

15:30 - 17:00 uur Renato Cocconi

17:00 - 18:00 uur *Afsluiting met drankjes en hapjes*

Moderator: Hayé Remmelink

CONGRESS SUMMARY

Interdisciplinary Orthodontics

Orthodontics is facing two important challenges: the interaction with other dental disciplines that can expand the borders of our treatments and the advent of digital technologies that can help in the planning and visualization of the final outcome.

Interdisciplinary knowledge is the real asset of our profession but it has to be translated in a hierarchy of decisions, protocols and algorithms that the computer can transform into a three-dimensional project. The orthodontist should think as a team member and digital technology will be the global positioning system.

This lecture will illustrate, with cases, the hierarchy of decisions followed in interdisciplinary treatment, where the correct execution of the plan requires that the various members of the team take responsibility for specific aspects and stages of treatment. The orthodontist is very often the 'quarterback of the team' who needs to organize this interdisciplinary working in a proper sequence.

Aims: To provide an overview of interdisciplinary work in the digital era.

Objectives: This lecture will provide a contemporary overview of interdisciplinary care in the digital era and will illustrate this with examples of treated patients.

Learning outcomes: Following this presentation delegates will have acquired contemporary knowledge regarding the use of digital technologies in interdisciplinary care and will be able to consider this with respect to their own clinical practice.

BIOGRAPHY DR RENATO COCCONI

Renato Cocconi is an orthodontist in Parma, Italy where he belongs to the FACE Ortho Surgical Center, a private practice that he directs with Prof. Raffaini.

Dr Cocconi attended a 3 year Postgraduate Program in Orthodontics at the Department of Orthodontics of the University of Milan where he obtained his master's degree in 1993. He subsequently spent 2½ years in the United States where he worked in L.F. Andrews and attended the Roth Williams postgraduate course in from 1993-1994. Since that time Dr Cocconi has been very active in the orthodontic community nationally and internationally.

His accomplishments and collaborations worldwide include working with Dr Terry Tanaka, membership of the Angle Society of Europe and countless invitations to speak internationally for such groups as European and American Orthodontic Society, the American Academy of Esthetic Dentistry, the European Academy of Esthetic Dentistry. He has served as a clinical professor in the Department of Orthodontics of the University of Milan from 1993 to 2008.

Currently, Cocconi is a practicing partner in the FACE group in Italy and Europe and is also active in many organizations including the EOS, AAO, SIDO and the Angle Society of Europe. He is President (2018) of the Scientific Committee of the Angle Society of Europe and active member of the European Academy of Esthetic Dentistry.

BIOGRAPHY DR NIKO PERAKIS

Dr Nikolaos Perakis graduated in dentistry with first class honours at the University of Bologna (Italy). He completed his studies at the University of Geneva (Switzerland) where he obtained the title of LMD, a Doctorate under the direction of Dr Pascal Magne, and the Specialization in Fixed Prosthodontics under the direction of Prof. U. Belser.

He is an active member of the Swiss Society of Restorative Dentistry (SSRD), of the Accademia Italiana di Conservativa (AIC) and of the European Academy of Esthetic Dentistry (EAED).

He gave lectures and courses in many Universities as Harvard University, Boston (MA), University of Southern California USC, Los Angeles (CA), Université de Strasbourg (France), Université de Genève (Switzerland), University Athens (Greece), Università di Napoli e di Bologna (Italy). He has over the past years published scientific articles and lectured internationally.

Dr Perakis maintains his own private practice in Bologna (Italy).
