

Program Nerve Entrapments in Cadaver Workshop SkillsLab ErasmusMC Rotterdam

Day 1 – Normal Anatomy

08.30	Welcome, registration, coffee and tea
09.00	Introduction
09.05	Pelvic Vascular and Neuroanatomy – live laparoscopic dissection Nucleio Lemos
10:15	Washroom Break
10:30	Theoretical lecture – Muscles and Ligaments of the Lower Abdomen – pelvic functional anatomy Fetske Hogen Esch
11:30	Practical Anatomy Activity – Pelvic Floor, abdominal and lumbar wall anatomy Fetske Hogen Esch and Nucleio Lemos
12:30	Lunch
13:30	Hands-On Practice – Anatomic Dissection in Cadaveric Hemipelvices
16:00	Discussions about findings
17:00	Adjourn

Day 2 – Pathological/Dysfunctional Anatomy

09:00	Pudendal Neuralgia and other Intrapelvic Nerve Entrapment Nucleio Lemos
10:00	Neurogenic-like symptoms secondary to Musculoskeletal Dysfunction FHAHogen Esch
11:00	Washroom Break
11:15	Practical Anatomical Activity
12:30	Lunch
13:30	– Practical Anatomical Activity – Case Studies with Cadaveric Correlation
15:30	Washroom Break
16:00	Course evaluation and Wrap Up
17:00	Adjourn
