

**7th Radboud Aesthetic & Reconstructive Round -
Advances in Reconstructive Breast Surgery**

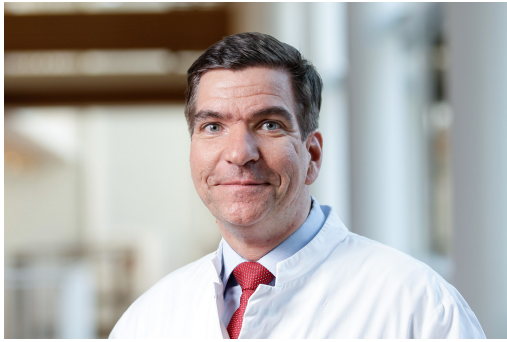

March 22nd, 2019

Radboud University Medical Center, Nijmegen

Prof. Fabio Santanelli di Pompeo

Rome, Italy

Dear esteemed colleagues,

I am proud to invite you to join the 7th *Radboud Aesthetic & Reconstructive Round* on March 22nd, 2019 in Nijmegen with the topic 'Advances in Reconstructive Breast Surgery'.

The concept of the *Radboud Aesthetic & Reconstructive Rounds* is to get hands-on training and lectures on selected topics in plastic surgery from national and international experts. At the same time, an open and frank discussion among the attending colleagues about our own problem cases and failures is strongly encouraged. The content is suitable for residents, but also for experienced plastic surgeons who want to expand and refine their surgical armamentarium.

It gives me great pleasure to welcome Prof. Fabio Santanelli di Pompeo from Rome, Italy, to our department.

Prof. Santanelli di Pompeo is head of the Department of Plastic Surgery at Sant'Andrea Hospital in Rome and holds the Chair of Plastic Surgery at University Sapienza of Rome. His main interest is reconstructive microsurgery, with a special focus on breast reconstruction with DIEP flaps and Latissimus Dorsi flap procedures. Numerous publications, lectures, and book chapters illustrate his unique expertise in the area of reconstructive breast surgery. His intense activity in this field led to the creation of the University Master Course on Breast Reconstruction at the School of Medicine and Psychology of Sapienza University of Rome in 2007. From 2009 he is also Chief of the Fellowship Experimental Laboratory for Vascular and Nerve Microsurgery at the Department of Biosciences, Tecnopolo, in Rome. His commitment and contribution to the scientific research in plastic surgery brought national and international recognition, with the consequent appointment as Secretary General of the European Association of Plastic Surgeons (EURAPS), since May 2014.

I look forward to welcoming you in Nijmegen to join an exciting hands-on training in reconstructive breast surgery and state-of-the-art lectures!

Kind regards,

Dietmar Ulrich

Program

- 9:00 Welcome: Prof. dr. Dietmar Ulrich
- 9.05 Cadaver dissection exercises with Prof. dr. Fabio Santanelli de Pompeo and Prof. dr. Dietmar Ulrich at the Department of Anatomy, Radboud university medical center *route 102*
- Deep Inferior Epigastric Artery Perforator (DIEP) flap
 - Profunda Artery Perforator (PAP) flap
 - Latissimus dorsi (LD) flap
 - Recipient vessels breast reconstruction
- 13:00 Lunch – *restaurant A-gebouw, route 607*
- 14:00 Lecture ‘Actual Concepts of Breast Reconstruction’ – Prof. dr. Fabio Santanelli de Pompeo – *conference room San Giorgi – route 611, 1st floor*
- 15:00 Discussion
- 15:30 Presentation of problem cases by the participants
- 16.00 Closure and *borrel* – *conference room ‘Erker’ – route 634, 5th floor*

Venue

The course will take place at the Radboud university medical center in Nijmegen.

Accreditation

6 credit points will be requested by the NVPC (Dutch society for plastic surgeons).

Submission of cases

Please submit a 3 minutes PowerPoint presentation with a problem case of facial nerve reconstruction you want to discuss with the attendees of the 7th *Radboud Aesthetic and Reconstructive Rounds* via email: dietmar.ulrich@radboudumc.nl.

Deadline: March 15th, 2019.

Registration

You can register yourself for this course on www.radboudrounds.nl

The maximum number of participants for this course is 20.

Fee

The course fee is € 250,- for Plastic Surgeons and € 100,- for Residents.
