Goal setting & Gait Analysis: advanced methods for a patient-centered strategy in spasticity

Dr. L. Gonçalves & Dr. L. J. Jacinto - Portugal

Advanced course - Goal setting & Gait Analysis: advanced methods for a patient-centered strategy in spasticity

All courses are designed as lecture & hands-on trainings and are conducted at a basic or advanced level according to the acquired experience with Botulinum Toxin-A (BoNT-A) injections and objectives of participants.

Trainees who intend to participate to advanced courses are injectors of BotuliNum Toxin-A (BoNT-A) who:

- already have an experience,
- would like to go deeper on one technique or approach,
- have practicing this technique for more than two years.
