

14th EFAS Congress

European Federation
of Audiology Societies

Lisbon · Portugal

22nd to 25th May 2019

22th Wednesday

	MAIN AUDITORIUM	SMALL AUDITORIUM	MEETING ROOM 2
12:30	Registration		
13:30 - 18:15	PRE-SYMPOSIUM		
13:30 - 14:15	EFAS WG SHS School Age Hearing Screening <i>Jan Wouters</i>		
14:15 - 15:00	EFAS WG Auditory Processing Disorders <i>Vasiliki (Vivian) Illiadou</i>		
15:00 - 15:45	EFAS WG EDU Audiology Education <i>Birger Kollmeier</i>		
15:45 - 16:15	Break		
16:15 - 17:00	EFAS WG AID Audiology & Intellectual Disability <i>Melina Willems</i>		
17:00 - 17:45	Tinnitus: why is important to have standardization? <i>Hauka Haider</i>		
17:45 - 18:30	EU Project EUScreen <i>Inger Uhlen</i>		
18:30 - 19:00	OPEN CEREMONY		
19:00 - 19:30	WELCOME RECEPTION		
19:30	WELCOME RECEPTION		

23th Thursday

	MAIN AUDITORIUM	SMALL AUDITORIUM	MEETING ROOM 1	MEETING ROOM 2
8:00 - 9:00	Keynote 1			
	Circadian regulation of the auditory system: New insights and therapeutics implications			
	<i>Speaker: Barbara Calon</i>			
9:00 - 10:30	Structured session 1	Free Paper Session 2 - Cochlear implants I	Free Paper Session 6 - Audiologic diagnosis	Free Paper Session 9 - Audiological rehabilitation
	Educational audiology			
10:30 - 11:00	Break			
11:00 - 12:30	Structured session 2	Free Paper Session 3 - Cochlear implants II	Poster Discussion 1	Poster Discussion 2
	Hearing instruments or cochlear implants? Audiological indication criteria			
12:30 - 13:30	Industry Sponsored Satellite Symposium			
13:30 - 14:30	Lunch			
14:30 - 15:30	Poster Discussion 3			
15:30 - 17:00	Structured session 3	Free Paper Session 4 - Auditory processing Disorders I	Free Paper Session 7 - Vestibular disorders, diagnosis and therapy I	Free Paper Session 10 - Recruiting the other ear in SSD and bimodal fitting
	The smartphone revolution in audiology			
17:00 - 17:30	Break			
17:30 - 19:00	Free Paper Session 1 - Bone conduction hearing devices	Free Paper Session 5 - Age Related hearing loss	Free Paper Session 8 - Devepment of hearing throughout life	Free Paper Session 11 - Pediatric Audiology

24th Friday

	MAIN AUDITORIUM	SMALL AUDITORIUM	MEETING ROOM 1	MEETING ROOM 2
8:00 - 9:00	KEYNOTE 2			
	The importance of bilateral and spatial hearing in development evidence from children with bilateral and asymmetric hearing loss			
	<i>Speaker: Karen Gordon</i>			
9:00 - 10:30	STRUCTURED SESSION 4	Free Paper Session 13 - Cochlear implants IV	Free Paper Session 17 - Hearing Aids	Free Paper Session - 20 Genetics
	APD: diagnostics and auditory training			
10:30 - 11:00	Break			
11:00 - 12:30	STRUCTURED SESSION 5	Free Paper Session 14 - Electrophysiology and audiology	Poster Discussion 4	Free Paper Session 21 - Other topics related to audiology I
	Recruiting the other ear in SSD and bimodal fitting			
12:30 - 13:30	KEYNOTE 3			
	Assessing all five vestibular organs: clinical applications in adult and pediatric (CI) population			
	<i>Speaker: Andy Beynon</i>			
13:30 - 14:30	Lunch			
14:30 - 15:30	Poster Discussion 5			
15:30 - 17:00	STRUCTURED SESSION 6	15:30-17:00 Free Paper Session 15 - Auditory Processing Disorders II	15:30-15:50 Free Paper Session 18 - Implantable hearing devices	15:30-15:50 Free Paper Session 22 - Hearing Screening
	Improved prediction of speech intelligibility with hearing devices			
	Chairman: Birger Kollmeier, Maria Boboschka			
	B. Kollmeier			
	Wouter Dreschler			
	Ekaterina Zhilinskaya			
	M. Boboshka			
	M.R. Schädler			
E.Lopez-Poveda				
A. Büchner				
17:00 - 17:30	Break			
17:30 - 18:30	Free Paper Session 12 - Cochlear Implants III	Free Paper Session 16 - Hearing and Cognition	Free Paper Session 19 - Vestibular disorders, diagnosis and therapy II	Free Paper Session 23 - Otoacoustics emissions and Screening
18:30 - 19:30	EFAS GA Meeting			
20:00 - 23:00	Event Network			

25th Saturday

	MAIN AUDITORIUM	SMALL AUDITORIUM	MEETING ROOM 1	MEETING ROOM 2
8:00 - 9:00	Keynote 4			
	Hearing loss: demographics, indicators, and relevance. A review of progress and shortcomings in hearing assessment. <i>Speaker: Inga Holube</i>			
9:00 - 10:30		Free Paper Session 25 - Speech understanding	Free Paper Session 27 - Other topics related to audiology II	Free Paper Session 28 - Tinnitus
	Acoustically and electrically evoked potentials: from the electrocochleography to the response of auditory cortex Moderator: George Tavarikiladze			
	Norbert Dillier - The use of electrically evoked potentials for improved cochlear implant coding strategies Andy Beynon - Intra-operative CM recordings during cochlear implant insertions			
	George Tavarikiladze - Electrically evoked potentials in cochlear implant users: from periphery to auditory cortices Vigen Bakhshinyan - Innovative rehabilitation approaches in CI patients based on neural response telemetry			
10:30 - 11:00	Break			
11:00 - 12:30	Free Paper Session 24 - Screening	Free Paper Session 26 - Vestibular disorders, diagnosis and therapy III	Poster Discussion 6	Free Paper Session 29 - The smartphone revolution in audiology
12:30 - 13:30	Closing Ceremony
