

18/03/2019

## **5th INTERNATIONAL CONFERENCE NEW CONCEPTS IN LYMPHOID MALIGNANCIES**

**Estoril, Portugal  
October 3-5, 2019**

**Chairs : Michael Hallek, Georg Lenz, Franck Morschhauser, Laurie Sehn, Stephan Stilgenbauer, Andrei Thomas-Tikhonenko**

### **Thursday, October 3, 2019**

08:00-08:05	<b>Welcome</b>	
<b>SESSION I -</b>	<b>Molecular mechanisms of B-cell neoplasms (B-cell signaling) #1</b>	
Chair: TBA		
08:05-08:25	Mechanisms of B-cell development with relevance to lymphomagenesis	Ulf Klein (Leeds)
08:25-08:30	<i>Discussion</i>	
08:30-08:50	Genetics and pathogenesis of aggressive B-cell lymphoma	Riccardo Dalla-Favera (New York)
08:50-08:55	<i>Discussion</i>	
08:55-09:15	Functional proteomics revealing signaling complex in B-cell lymphoma	TBA (Tba)
09:15-09:20	<i>Discussion</i>	
09:20-09:40	Pathogenesis of Hodgkin lymphoma	Christian Steidl (Vancouver)
09:40-09:45	<i>Discussion</i>	
09:45-10:05	Epigenetics in lymphoma	Ari Melnick (New York)
10:05-10:10	<i>Discussion</i>	
10:10-10:40	<i>Round table or short communications or controversial debate</i>	
10:40-11:05	<i>Coffee break</i>	
<b>SESSION II -</b>	<b>Molecular mechanisms and clonal evolution of B-cell neoplasms (B-cell signaling) #2</b>	
Chair: TBA		
11:05-11:25	Evolution of the genomic landscape in CLL	Dan Landau (New-York)
11:25-11:30	<i>Discussion</i>	

11:30-11:50	Transformation and genomics in follicular lymphoma	Jude Fitzgibbon (London)
11:50-11:55	<i>Discussion</i>	
11:55-12:15	Novel mouse models of aggressive lymphoma reveal distinct molecular vulnerabilities	Christian Reinhardt (Cologne)
12:15-12:20	<i>Discussion</i>	
12:20-12:50	<i>Round table or short communications or controversial debate</i>	
12:50-14:30	<b>Lunch</b>	

**13:30-14 :30 SATELLITE SYMPOSIUM:**

**Title : TBA**

**Chair : TBA**

**Speakers : TBA**

*This symposium is organised by Celgene*

**SESSION III - Molecular mechanisms of B-cell neoplasms :  
Insights from single cell or proteome analysis in lymphoma #3**

Chair: TBA

14:30-14:50	Molecular heterogeneity in mantle cell lymphoma	Elias Campo (Barcelona)
14:50-14:55	<i>Discussion</i>	
14:55-15:15	Single cell analysis of signaling	Garry P. Nolan (Stanford)
15:15-15:20	<i>Discussion</i>	
15:20-15:40	Single cell imaging	Andrea Radtke (Bethesda)
15:40-15:45	<i>Discussion</i>	
15:45-16:05	Circulating tumour DNA	Ash A. Alizadeh (Stanford)
16:05-16:10	<i>Discussion</i>	
16:10-16:30	Signaling components in lymphoma	Thomas Oellerich (NCI/Frankfort)
16:30-16:35	<i>Discussion</i>	
16:35-17:00	<i>Round table or short communications or controversial debate</i>	
17:00-17:25	<b>Coffee break</b>	

**SESSION IV - Targeting the tumour microenvironment in lymphoma :  
Mechanisms and therapeutic use**

Chair : TBA

17:25-17:45	The role of the microenvironment in lymphoma	Karin Tarte (Rennes)
17:45-17:50	<i>Discussion</i>	

17:50-18:10	CD47 targeting as a checkpoint for macrophage activation in lymphoma	Sonali Smith (Chicago)
18:10-18:15	<i>Discussion</i>	
18:15-18:35	Checkpoint inhibition in lymphoid malignancies	Margaret Shipp (Boston)
18:35-18:40	<i>Discussion</i>	
18:40-19:00	Modulation of the tumour microenvironment in CLL	Silvia Deaglio (Turin)
19:00-19:05	<i>Discussion</i>	
19:05-19:25	Targeting of kinases to modify the lymphoma microenvironment	Phuong-Hien Nguyen (Cologne)
19:25-19:30	<i>Discussion</i>	
19:30-19:50	Memory and tumor-initiation in B-cell malignancies	Markus Müschen (Los Angeles)
19:50-19:55	<i>Discussion</i>	
19:55-20:15	<i>Round table or short communications or controversial debate</i>	
20:15	<i>Free evening</i>	

### Friday, October 4, 2019

#### 08:00-09:00 **SATELLITE SYMPOSIUM:**

**Title : TBA**

**Chair : TBA**

**Speakers : TBA**

*This symposium is organised Janssen*

08:00-09:00 3 Simultaneous Meet the Expert Sessions (non-clinical)

1. TBA

TBA

2. TBA

TBA

3. TBA

TBA

09:00-09:25 *Coffee break*

#### **SESSION V - Cellular immunotherapies for lymphoid malignancies**

Chair: TBA

09:25-09:45 CARs, TRUCKs and beyond : novel strategies and constructs

Hinrich Abken (Regensburg)

09:45-09:50 *Discussion*

09:50-10:10 CAR-T cell update in DLBCL

Stephen J. Schuster ( Philadelphia)

10:10-10:15 *Discussion*

10:15-10:35 Longterm follow-up of CD19 CAR therapy in acute lymphoblastic leukaemia

Jae H. Park (New York)

10:35-10:40	<i>Discussion</i>	
10:40-11:00	CAR-T cells in CNS lymphoma	Jeremy S. Abramson (Boston)
11:00-11:05	<i>Discussion</i>	
11:05-11:25	Mechanisms of resistance against CAR-T cell therapy	Andrei Thomas-Tikhonenko (Philadelphia)
11:25-11:30	<i>Discussion</i>	
11:30-11:50	Preparatory regimen for efficient CAR-T cell therapy	David Maloney (Seattle)
11:50-11:55	<i>Discussion</i>	
11:55-12:25	<i>Round table or short communications or controversial debate</i>	

12:25-12:35	Early-Career Scholarship Award Ceremony	TBA (TBA)
-------------	---	-----------

12:35-13:30 **Lunch**

**SESSION VI - Targeting the signaling pathways of lymphoid malignancies, monotherapies versus combination therapy**

Chair: TBA

13:30-13:50	Novel Btk inhibitors, acalabrutinib	Paolo Ghia (Milan)
13:50-13:55	<i>Discussion</i>	
13:55-14:15	Bcl2 inhibition in combination and monotherapy (CLL)	Stephan Stilgenbauer (Ulm)
14:15-14:20	<i>Discussion</i>	
14:20-14:40	Mcl1 inhibitors	Andreas Strasser (Melbourne)
14:40-14:45	<i>Discussion</i>	
14:45-15:05	PI3K inhibition : an update	Georg Lenz (Münster)
15:05-15:10	<i>Discussion</i>	
15:10-15:30	EZH2 inhibitors	Vincent Ribrag (Villejuif)
15:30-15:35	<i>Discussion</i>	
15:35-16:00	<i>Round table or short communications or controversial debate</i>	

16:00-16:25 **Coffee Break**

**SESSION VII - Strategies to integrate genomics, novel agents and traditional approaches into one treatment concept**

Chair: TBA

16:25-16:45	CLL	Barbara Eichhorst (Cologne)
16:45-16:50	<i>Discussion</i>	
16:50-17:10	Mantle cell lymphoma	Simon Rule (Plymouth)
17:10-17:15	<i>Discussion</i>	

17:15-17:35	DLBCL	Laurie Sehn (Vancouver)
17:35-17:40	<i>Discussion</i>	
17:40-18:00	Follicular lymphoma	Franck Morschhauser (Lille)
18:00-18:05	<i>Discussion</i>	
18:05-18:25	CNS	Gerald Illerhaus (Stuttgart)
18:25-18:30	<i>Discussion</i>	
18:30-19:00	<i>Round table or short communications or controversial debate</i>	
19:00-20:00	<i>Poster Walks and Get-Together Buffet Dinner</i>	

### Saturday, October 5, 2019

07:30-08:30 3 Simultaneous Meet the Expert Sessions (Clinical)

4. TBA	TBA
5. TBA	TBA
6. TBA	TBA

#### SESSION VIII - Targeted therapy of selected rare entities : an update

Chair: TBA

08:30-08:50	Waldenström macroglobulinemia	Christian Buske (Ulm)
08:50-08:55	<i>Discussion</i>	
08:55-09:15	Hairy cell leukaemia	Brunangelo Falini (Perugia)
09:15-09:20	<i>Discussion</i>	
09:20-09:40	KSHV-associated/AIDS-related lymphoma	Ethel Cesarman (New York)
09:40-09:45	<i>Discussion</i>	
09:45-10:05	Ph-like B-ALL	Sarah Tasian (Philadelphia)
10:05-10:10	<i>Discussion</i>	
10:10-10:40	<i>Round table or short communications or controversial debate</i>	
10:40-11:00	<i>Coffee Break</i>	

#### SESSION IX - How to ensure that breakthroughs will happen now for NHL/CLL? Innovative trial design, novel concepts of computational biology and modeling, translational studies in patients leading to discovery and functional studies. Reverse translation.

Chair: TBA

11:00-11:20	Lymphoma xenografts: how to get back to the bench?	David M. Weinstock (Boston)
11:20-11:25	<i>Discussion</i>	
11:25-11:45	Innovative, adaptive trial design for CLL	Andrew Pettitt (Liverpool)

11:45-11:50	<i>Discussion</i>	
11:50-12:10	Imaging to guide targeted therapies	Michel Meignan (Créteil)
12:10-12:15	<i>Discussion</i>	
12:15-12:35	Precision medicine trials for lymphoma	Anas Younes (New York)
12:35-12:40	<i>Discussion</i>	
12:40-13:00	Novel mechanisms to foster comprehensive assessment	TBA (Tba)
	<i>Discussion</i>	
13:00-13:30	<i>Round table or short communications or controversial debate</i>	
13:30-13:35	<i>Closing remarks</i>	

**MEETING CLOSURE**
