

**PRE-CONFERENCE COURSE BY PROF. DR. BENEDICT WILMES
OF THE UNIVERSITY OF DUESSELDORF, GERMANY
WEDNESDAY 27 NOVEMBER 2019, 12.30 – 17.30**

Skeletal anchorage in orthodontics - the update!

Utilizing TAD's in the anterior palate and the mental region eliminates the risk of root injury and takes the implants out of the path of tooth movement. The design of an interchangeable abutment system provides the orthodontist with a skeletal anchorage system that integrates easily into clinical practice and allows treatment of cases that were difficult or impossible to treat previously. Integration of recent advances in digital technology such as virtual planning of TAD installation, insertion guides and CAD-CAM design and 3D printing of orthodontic appliances broadens the options significantly.

**POST-CONFERENCE WORKSHOP BY JOHAN REYNEKE, GABRIELLE MILLESI,
MIKE LEUNG, SIMONAS GRYBAUSKAS, VINCENT PERCIACCANTE,
EDDY BECKING
SATURDAY 30 NOVEMBER 2019, 09.00 – 13.00**

Ryder Cup, techniques in theatre

Under the stimulating patronage of master of masters, Johan Reyneke, he and other well-known orthognathic surgeons will be challenged and share their techniques, tips, tricks, narrow escapes, complications and disasters to an enthusiastic group of greedy surgeons in order to provoke argumental discussion and in-depth intervisional learning.

The atmosphere will be of epic Ryder Cup proportions including singles, doubles, four-balls, cheering, battles, mental games but, above all, good sportsmanship.

You all are cordially invited. Premium beneficial seating is guaranteed for Oral and Maxillofacial trainees.

Biennial Symposium

Surgical Orthodontics

28 & 29 November 2019

Haarlem The Netherlands

Featuring:

**Pre-conference Course by
Benedict Wilmes**

**Post-conference Workshop by
Johan Reyneke, Gabrielle Millesi, Mike Leung,
Simonas Grybauskas, Vincent Perciaccante, Eddy Becking**

**Organization:
Eddy Becking, Sandy van Teeseling, Ireen Rientjes**

INTRODUCTION

After seven very successful meetings in the period 2005-2017 we proudly present the eighth edition. The Biennial Symposium on Surgical Orthodontics is organized to present an opportunity for both orthodontists and maxillofacial surgeons to gather and share scientific information on diagnosis and treatment planning in the field of surgical orthodontics.

BSSO is renowned for delivering up-to-date information, state of the art communications on orthodontics and surgery, excellent and concise lecturing, provocative discussions in an excellent and warm atmosphere. Over the years we have hosted lecturers from over 20 countries and participants from all continents. Many of them come back for multiple BSSO's. Everyone who is interested in preparing, planning, execution and management of orthognathic surgery is cordially invited to the centre of beautiful Haarlem. The city, the region and Amsterdam offer many opportunities for site-seeing, socializing and enjoying medieval constructions and art.

VENUE

The symposium, pre-conference course, conference dinner on Thursday and the post-conference workshop will be held in the outstanding and convenient Philharmonie in Haarlem. It is centrally situated in the picturesque old town. In order to enable you to make your hotel reservation, we recommend several hotels in Haarlem. Please visit www.bssso.nl/hotels for detailed information.

ORGANIZATION

Eddy Becking, Oral and Maxillofacial Surgeon, Amsterdam & Haarlem
Sandy van Teeseling, Orthodontist, Amsterdam & Haarlem
Ireen Rientjes Congresorganisatie, Hengelo

SYMPOSIUM 28 & 29 NOVEMBER 2019

The program of the BSSO2019 symposium will be focussed on hot topics within surgical orthodontics and orthognathic surgery. The faculty is a mix of eminent speakers in the field who already have successful experiences in lecturing at BSSO and colleagues from different continents who are less renowned in Europe (yet) but may come up with surprising and very interesting information on the cutting edge of orthodontics and surgery.

Treatment with Temporary Anchorage Devices will be extensively highlighted by two of Europe's best lecturers on this subject.

Orthognathic surgery will be subject of many talks from different continents with emphasis on the pluriformity of faces and there will be an emphasis on facial harmony from different points of view. Colleagues from Italy will present their comprehensive ways of planning and execution in strive (and succeed) towards clinical excellence in an interactive dual presentation. A variety of the world's best speakers will give their best to inform, share knowledge and certainly entertain you. BSSO2019 is absolutely great fun to attend, but also to organise. We are very proud to present this year's program to you and hope to host you in Haarlem!

FACULTY SYMPOSIUM 28 & 29 NOVEMBER 2019

STEEFAAN BERGÉ, ORAL AND MAXILLOFACIAL SURGEON, NIJMEGEN, THE NETHERLANDS
