

Session Schedule

Tuesday, December 3rd

Wednesday, December 4th

Thursday, December 5th

Friday, December 6th

	Time	Event
Auditorium	08:30 - 09:15	■ Diagnosis of diabetes: Should we re-introduce a 1-hour oral glucose tolerance test?
	09:15 - 10:00	■ Upcoming anti-glycaemic treatment options
	10:15 - 11:45	■ Latest guidelines on glucose management
	13:15 - 14:45	■ Latest clinical trials
	15:00 - 15:45	■ IDF Award for Basic and Translational Science
	15:45 - 16:30	■ IDF Award for Clinical and Therapeutic Research
Convention Hall 3	08:30 - 10:00	■ Is the epidemic abating?
	10:15 - 11:45	■ Diabetes in the Western Pacific region
	13:15 - 14:45	■ Diabetes among different Asian populations
	15:00 - 16:30	■ The global burden of complications
Convention Hall 205	08:30 - 10:00	■ Improving care with the help of technology
	10:15 - 11:45	■ Usefulness of self-monitoring of blood glucose to empower patients and prevent acute and chronic diabetes complications
	13:15 - 14:45	■ The patient-led technology revolution
	15:00 - 16:30	■ Applications of digital technologies for diabetes in different social and cultural environments
Convention Hall 201	08:30 - 10:00	■ New drug targets for anti-obesity and diabetes
	10:15 - 11:00	■ Metabolic reprogramming in diabetes and cancer
	11:00 - 11:45	■ The systematic integration of hepatic insulin resistance
	13:15 - 14:00	■ Nutrient-sensing nuclear receptors in diabetes
	14:00 - 14:45	■ Role of hepatokines in non-alcoholic fatty liver disease
	15:00 - 16:30	■ Diabetes prevention in high-risk younger populations
Convention Hall 107	08:30 - 10:00	■ Renal effects of glucose-lowering therapies: From basic mechanisms to clinical trials
	10:15 - 11:45	■ Recent advances in the treatment of diabetic kidney disease
	13:15 - 14:45	■ Hypertension: Treatment approaches and goals
	15:00 - 16:30	■ Comorbidities of hypertension and diabetes
Convention Hall 102	08:30 - 10:00	■ Maternal-child health and non-communicable disease prevention - IDF-FIGO joint symposium
	10:15 - 11:45	■ Beyond gestational diabetes: Life course prevention of diabetes and cardiovascular disease in women
	13:15 - 14:00	■ Long-term consequences of gestational diabetes - Insights from the HAPO follow-up studies
	14:00 - 14:45	■ IDF Award for Diabetes and Women
	15:00 - 16:30	■ Gender issues in diabetes
Convention Hall 101	08:30 - 09:15	■ How to deliver quality diabetes education in different societies and cultures
	09:15 - 10:00	■ How to overcome cultural and social barriers to build capacity for diabetes care
	10:15 - 11:45	■ When and why diabetes is about so much more than numbers
	13:15 - 14:45	■ Different sides to peer support
Diabetes Spotlight	08:30 - 09:15	■ Effects of cultural, social and economic transitions and diabetes prevalence across continents
	09:15 - 10:00	■ How best can society improve the quality of diabetes treatment?
	10:15 - 11:45	■ Must higher diabetes risk always accompany urbanisation?
	13:15 - 14:00	■ Genetic, cultural and social determinants of diabetes - Is there a difference between East and West?
	14:00 - 14:45	■ Evaluation and control of individual, societal and cultural risk factors for diabetes
	15:00 - 16:30	■ Diabetes and disasters
