Mini-theatre in Exhibition Area (Hall 3)

MDT DIARIES: A DAY THAT CHANGED MY PRACTICE

**PM 3
17:00 – 18:00**

Chair(s): Laura Vincent & Aoife Abbey

Who was it?

What did they say?

Did you look at somebody differently?

Did you suddenly realise that this was a career defining moment?

What did you learn... or unlearn?

What is that one memory you will look back on in twenty years and think 'I remember the day that happened...I remember what followed on from that moment'

More information & details on how to submit your abstract available here https://soa.ics.ac.uk/abstract_submissions/

17:00 - 18:30

Complimentary Drinks Reception, Exhibition Area (Hall 3)

Gold Medal is awarded annually to a young investigator (nurse, AHP or doctor) who has shown excellence in science relevant to intensive care. The researcher is usually someone who has completed a substantial body of work (e.g. MD/PhD) and should not be in a Consultant / Senior Lecturer post or equivalent (although where the body of work was completed prior to recent appointment they will be considered). The award process allows a number of finalists to achieve recognition through formal presentation at the ICS State of the Art meeting in front of their peers. The award is open to members and non-members. A maximum of 5 abstracts will be shortlisted for the Gold medal oral presentation.
