

LECTURE ABSTRACT, BIOGRAPHY & DISCLOSURE OF INTEREST (Applicable only if speaker)

Abstract summaries are very helpful to delegates in obtaining maximum benefit from lectures at the meeting. To this end, we should like to receive a short, succinct abstract of your presentation. This should contain the main elements of your intended lecture content and should emphasize the key messages that you wish to impart.

The biography provided during the submission will be used to introduce you to the audience before giving your talk.

For your information, you will be required to fill in:

- The title of your presentation (speaker abstract title)
- A short biography
- A disclosure of interest
- A summary of your presentation (speaker abstract)

These can be submitted via the Electronic Abstract Submission system :
