

# Call for Research Projects

# **EAUN Nursing Research Competition**

€ 2,500 grant to be awarded at the 21st International  
EAUN Meeting in Amsterdam, 21-23 March 2020

# Nursing research may bring the most amazing results

**With the EAUN's commitment to support innovative work, we invite you to submit a research project proposal for the EAUN Nursing Research Competition.**

During the 21st International EAUN Meeting in Amsterdam, 21-23 March 2020, all projects of the nominees will be discussed in a scientific session, enabling all participants to learn through feedback and discussions. A winner, chosen from the final nominees selected by a jury, will receive € 2,500 to (partly) fund the research project.

## **Eligible participants have to comply with the following:**

- Only EAUN members can submit a research project
- The project has not started at the time of submission
- The research and the presentation have to be done by a nurse
- The topic selected must be of relevance to urologic nursing
- The results of the prize-winning research project will be published in European Urology Today and on the EAUN website and the winner is invited to present the results at a future International EAUN Meeting.

## **Consider the following guidelines before you start writing your research protocol:**

- Is your research question clear and why does it matter?
- How will you address this question? (i.e. what methods will you use?)
- How important is this activity to urologic nursing?
- Are your research methods appropriate?

All criteria, forms and further details can be found at the Amsterdam congress website (from 1 June 2019): **[www.eaun20.org](http://www.eaun20.org)**

## **How to apply**

- Fill out the submission form (download the form from the Amsterdam website)
- Send the research project plan and the submission form to the EAUN by email at [eaun@uroweb.org](mailto:eaun@uroweb.org)

## **Submission deadline: 1 December 2019**

We hope that you will not miss this opportunity. Remember, nursing research small or large can still change the urological world!
