TENTATIVE SCIENTIFIC PROGRAM

Monday, June 29 2020

08:00-09:30	Parallel sessions	
	Triage of chest pain	Hall A
08:00	Case presentation	E. Berkovitz, Israel
08:18	Approach to patients with chest pain: the utilization of Troponin	A. Jaffe, USA
	Debate: functional vs. anatomical evaluation of chest pain <ul style="list-style-type: none">• Anatomical approach• Functional Approach: is there still a role for stress testing for evaluation?	A. Shalev, Israel
08:36		A. Wolak, Israel
08:54		D. Simon, USA
09:12	The emerging role of CT-FFR in the ED for chest pain	
	Management of atrial fibrillation	Hall B
08:00	New onset AF: to cardiovert or not and how?	M. Rav Acha, Israel
08:22	Post-CABG AF: a new look at an old problem	S. Borzak, USA
08:45	The AF patient post ACS/PCI	K. Huber, Austria
09:07	AF during acute non-cardiac illness	A. Sabbag, Israel
	Pulmonary embolism: an update	Hall C
08:00	Pathophysiology and risk stratification	E. Asher, Israel
08:22	Acute management of PE	R. Beigel, Israel
08:45	Percutaneous treatment of PE	S. Matetzky, Israel
09:07	Long term anticoagulation for patients with PE	G. Piazza, USA
	ICU and ICCU: ongoing cross-talk	Hall D
08:00	Troponin elevation in the critical patient: what does it mean?	G. Landesberg, Israel
08:18	Ventilation in the cardiac patient: indications for intubation and extubation criteria	J. Masip, Spain
08:36	Management of sepsis in the cardiac patient: is it different?	I. Stepinska, Poland
08:54	Delirium in the CCU	K. Orvin, Israel
09:07	ARDS in the cardiac patient	Y. Bar-Lavie, Israel
	Nursing session I	Hall E
09:30-10:00	Coffee break / poster session / exhibition	

10:00-11:00	Opening session	Hall A + B
10:00	Opening ceremony	
	Greetings:	
	Plenary session I (sponsored by SANOFI)	Hall A + B
	Plenary session II (sponsored by Astra Zeneca)	Hall A + B
12:00-13:45	Luncheon symposia	
Luncheon symposium I	Sponsored by Boehringer Ingelheim	
Luncheon symposium II	Sponsored by Novartis/Medison	
14:00-15:30	Parallel sessions	
	Non-ST-elevation ACS: update	Hall A
14:00	Mechanisms of ACS	<i>F. Crea, Italy</i>
14:22	Antithrombotic therapy	<i>M. Lettino, Italy</i>
14:44	Risk assessment scores	<i>H. Bueno, Spain</i>
15:06	Revascularization: an update	<i>R. Waksman, USA</i>
	Non-coronary emergencies in the ICCU	Hall B
14:00	Infective endocarditis: management and indications for surgery	<i>J. Stepinska, Poland</i>
14:22	Aortic dissection: a diagnostic therapeutic challenge	<i>D. Planer, Israel</i>
14:44	Valvular emergencies: evaluation and management	<i>A. Sagie, Israel</i>
15:06	Shock due to dynamic LVOT obstruction	<i>A. Pollak, Israel</i>
	MINOCA	Hall C
14:00	Diagnostic evaluation of the patient with MI and normal coronary arteries	<i>D. Hasdai, Israel</i>
14:22	Takotsubo	<i>F. Crea, Italy</i>
14:44	Coronary spasm	<i>J. Horowitz, Australia</i>
15:06	Viruses and vesicles in AMI	<i>E. Vasilieva, Russia</i>
	Dilemmas in pharmacological therapy post ACS/PCI	Hall D
14:00	The role of beta-blockers post-MI in the modern era	<i>J. Goldberger, USA</i>
14:18	Lipid management: beyond statins	<i>D. Fintel, USA</i>
14:36	Antithrombotic therapy: which, how long and for whom?	<i>P. Vranckx, Belgium</i>
14:54	How to manage bleeding on DAPT	<i>A. Mischie, France</i>
15:12	Chronic coronary syndromes: tips and barriers of implementation of the newest ESC guidelines	<i>A. Budaj, Poland</i>
	Nursing session II	Hall E
15:30-16:00	Coffee break / poster session / exhibition	

16:00-17:30	Parallel sessions	
	Special populations in the ICCU	Hall A
16:00	Pregnancy associated MI	<i>U. Elkayam, USA</i>
16:18	The elderly patient: should we treat differently?	<i>H. Bueno, Spain</i>
16:36	Gender differences in ACS patients	<i>R. Hershcovici, Israel</i>
16:54	Acute cardiac complications of cancer chemotherapy	<i>Z. Iakobishvili, Israel</i>
17:12	Patients with renal failure	<i>K. Shacham, Israel</i>
	Perioperative acute cardiac care	Hall B
16:00	Myocardial infarction and injury after non-cardiac surgery	<i>P.J. Devereaux, Canada</i>
16:22	Is there still a role for coronary investigation before non-cardiac surgery?	<i>G. Landesberg, Israel</i>
16:44	Interpreting pre- and post-operative Hs troponin values	<i>A. Jaffe, USA</i>
17:06	Transfusion thresholds in cardiac patients undergoing non-cardiac surgery: new insights	<i>D. Mazer, Canada</i>
	Russian thrombocardiology society joint session	Hall C

	Point of care imaging in acute cardiac care	Hall D
16:00	Non-invasive hemodynamics: tips and tricks	<i>Y. Topilsky, Israel</i>
16:22	Echocardiography during cardiac resuscitation	<i>R. Beigel, Israel</i>
16:45	Utilization of hand held ECHO	<i>S. Kobal, Israel</i>
17:07	Lung ultrasound: a tool for the CCU physician	<i>S. Price, UK</i>

Tuesday, June 30 2020

08:30-10:15	Parallel sessions	
	New trends in structural heart disease: aortic valve	Hall A
08:30	Debate: TAVI is the modality of choice for low risk AS	<i>R. Kornowski, Israel</i> <i>E. Raanani, Israel</i>
08:52	Conduction abnormalities during the post AV interventions	<i>M. Glikson, Israel</i>
09:14	Antithrombotic therapy and biological valve thrombosis	<i>Y. Abromowitz, Israel</i>
09:36	The approach to the patient with severe AS and CAD	<i>A. Kerner, Israel</i>
	Acute heart failure I	Hall B
08:30	Medical therapy for AHF – an update	<i>B. Greenberg, USA</i>
08:48	Pharmacologic and ventilatory management of acute pulmonary edema	<i>J. Masip, Spain</i>
09:06	Hyperkalemia and heart failure: clinical significance and therapeutic options	<i>U. Elkayam, USA</i>
09:24	Immunotherapy associated myocarditis	<i>O. Itzhaki, Israel</i>
09:42	The utilization of CMRI in patients with AHF	<i>O. Goitein, Israel</i>

	Out of hospital sudden cardiac death	Hall C
08:30	Measuring the quality of CPR and mechanical CPR devices	<i>S. Einav, Israel</i>
08:48	Novel approaches for the management of sudden death in the community	<i>R. Koster, Netherlands</i>
09:06	Revascularization for all?	<i>A. Segev, Israel</i>
09:24	Hypothermia: current approaches	<i>C. Hassager, Denmark</i>
09:42	ECMO-assisted CPR	<i>M. Noc, Slovenia</i>
	Nursing session III	Hall D
10:00-10:30	Coffee break / poster session / exhibition	
10:30-12:00	Plenary Session	Hall A + B
10:45	Keynote Lecture: Myocardial infarction and non-obstructive coronary disease (MINOCA)	<i>Noel Bery-Merz, USA</i>
	Plenary session III - BAYER	
12:00-13:45	Luncheon Symposiums	
Luncheon symposium III	Sponsored by Novonordisk	
Luncheon symposium IV	Sponsored by Pfizer	
14:00-15:30	Parallel sessions	
	Type 2 MI	Hall A
14:00	Case presentations: 2-3 cases	
14:22	Causes, definition and classification	<i>J. Alpert, USA</i>
14:44	Who should have coronary angiography and when?	<i>D. Fintel, USA</i>
15:06	Pharmacological management and prognostic implications	<i>A. Eisen, Israel</i>
	Acute heart failure II: cardiogenic shock	Hall B
14:00	Debate: Revascularization for the patient in cardiogenic shock - culprit only - complete revascularization	<i>U. Zeymer, Germany E. Koifman, Israel</i>
14:36	Contemporary treatment of cardiogenic shock: assist device update	<i>N. Uriel, USA</i>
14:54	Hemodynamic assessment of patients on MCS	<i>S. Price, UK</i>
15:12	Heart failure from CCU to home: devices and strategies to avoid a round-trip ticket	<i>S. Borzak, USA</i>
	Pre-hospital therapy of ACS	Hall C
14:00	Antiplatelet therapy	<i>D. Aronson, Israel</i>
14:18	Heparin/Morphine	<i>R. Strugo, Israel</i>
14:36	Oxygen therapy	<i>R. Alcalai, Israel</i>
14:54	OHCA: pre-hospital consideration	<i>O. Wacht, Israel</i>
15:12	Enhancing pre-hospital and ICCU collaboration	<i>TBA</i>
	Nursing session IV	Hall D
15:30-16:00	Coffee break / poster session / exhibition	

16:00-17:30	Parallel sessions	
	EP emergencies in the CCU	Hall A
16:00	VT storm	<i>E. Nof, Israel</i>
16:22	Emergencies in patients with implanted devices	<i>M. Haim, Israel</i>
16:44	Management of device infection	<i>D. Luria, Israel</i>
17:06	Evaluation of the post sudden death patient with no organic heart disease	<i>S. Viskin, Israel</i>
	STEMI	Hall B
16:00	Not all ST elevations are equal	<i>H. Hod, Israel</i>
16:18	Culprit only vs. Complete revascularization	<i>S. Atar, Israel</i>
16:36	The patient arriving late after STEMI	<i>A. Roguin, Israel</i>
16:54	What is the optimal length of stay? Early discharge post STEMI	<i>J. Alpert, USA</i>
17:12	Beyond revascularization: interventions to reduce infarct size	<i>M. Lettino, Italy</i>
	Great case challenge	Hall C
