## HIV Persistence, Immune activation & Comorbidities in Patients Living With HIV

**Webinar Tuesday 15 December 2020**

**17:30 – 17:45 hrs. Welcome and Objectives**

*Moderator Dr. Marc van der Valk, Amsterdam UMC*

**17:45 – 18:15 hrs**

- Why have we to care about immune activation ?
- Discordant immune-virological response
- The causes of immune activation

*Professor Pierre Corbeau, Group leader at the Institute for Human Genetics CNRS-Montpellier University and Head of the Immunology Department at the University Hospital of Nîmes, France*

**18:15 – 19:00 hrs**

- HIV reservoir in ART-experienced patients
- Impact of ART on residual viremia and blips
- Beyond undetectable viral load (LLV)

*Professor Annemarie Wensing, Clinical Virologist, University Medical Center Utrecht and Honorary Professor at the University of the Witwatersrand in Johannesburg*

**19:00 – 19:15 Break**

**19:15– 19:45 hrs**

- ART and immune activation
- The consequences of immune activation: comorbidities

*Professor Pierre Corbeau, Group leader at the Institute for Human Genetics CNRS-Montpellier University and Head of the Immunology Department at the University Hospital of Nîmes, France*

**19:45– 20:00 hrs**

- Long-term Virological success -> Challenges and opportunities today

*Professor Annemarie Wensing, Clinical Virologist, University Medical Center Utrecht and Honorary Professor at the University of the Witwatersrand in Johannesburg*

**20:00 – 20:30 hrs**

**Clinical cases & panel discussion**

*Moderator Dr. Marc van der Valk, Amsterdam UMC*
