

MASTERCLASS EFT: ADVANCED TRAINING

08 & 09 februari 2021: 14h30 - 21h30

This is a masterclass for advanced practitioners, supervisors and trainers. The focus will be on watching tapes and discussing micro processes. The masterclass will begin with an update on recent development in EFT as a trans-diagnostic treatment and on the core principle of changing emotion with emotion as a trans-theoretical principle. We will also focus on how to deal with difficult interpersonal processes by means other than confrontation or clarification.

To this end we would like a few brave souls to bring in tapes of difficult interpersonal processes so that we can discuss them and I can provide supervision on dealing with difficult moments that arise in EFT. In addition I will show tapes and discuss the moment by moment process at an advanced level.
