

Invitation

Janssen-Organized Live Rheumatology Webinar

Highlights of the EULAR 2021 Virtual Congress

Faculty

Costantino Pitzalis (UK) (Scientific Committee)

Philipp Sewerin (Germany) (Scientific Committee)

Peter C. Taylor (UK)

Monday 14 June 2021

Live webinar: 17:30–18:30 (CEST)

This live webinar will provide an **update on the newest developments** in the field of **rheumatic diseases** that were presented at the **EULAR 2021 Virtual Congress**. The focus will be on rheumatic diseases such as **psoriatic arthritis, spondyloarthritis, and rheumatoid arthritis**. The most interesting posters and oral presentations will be discussed in the wider context of rheumatic disease during the webcast. The audience worldwide will have the opportunity to interact with the faculty during the interactive segments of the programme.

We hope you can join us during this live, interactive session. If you are unable to attend the live broadcast, you will be able to watch the on-demand version once it is available.

Registration is required.

Learning objectives

After this webinar, participants should be able to:

- Interpret new data on psoriatic arthritis and other rheumatic diseases presented during the EULAR 2021 Virtual Congress
- Evaluate the significance of these new data and reflect on how they can be integrated into clinical practice
