

Invitation

Dear Colleagues,

We would like to invite you to the 17th Virtual Colonoscopy Course for radiologists.

In this three day hands-on workshop, 50 CTC cases will be studied in small groups under guidance of expert radiologists. Each case will be analyzed by the course attendees using advanced image processing software, followed by a plenary case assessment by the faculty based on full surgery and pathology reports. Individual doctor to doctor training is the essential basis of this course.

Several lectures, given in a multidisciplinary setting by international clinical experts, will focus on guidelines and practical handling of the scan and imaging technique, bowel preparation, clinical impact, radiation dose considerations etc. After this course, the attendee should be able to introduce, perform and analyze CTC in his or her department.

This course is facilitated by the Philips Healthcare CT Academy. The workstation used during the course will be the Philips IntelliSpace Portal including 2D and 3D reading, CAD for polyp detection and electronic cleansing. Despite the Philips preferred layout and workflow, your own settings and way of working can be used during the course. There is a variety of different similar vendors that can be used beyond the ones provided at the workshop.

Looking forward to welcome you in Amsterdam,

P.C.G. Simons, MD PhD
psimons@viecuri.nl

Location, Address

Bilderberg Garden Hotel

Dijsselhofplantsoen 7
1077 BJ Amsterdam

From Schiphol Airport

A taxi will cost approximately € 38.00. There is a Connection Shuttle Bus 2 times an hour. The Bilderberg Garden Hotel is the first stop from the airport. A one way ticket costs € 18.00 or € 28.00 for a return ticket.

Thursday 4 November 2021

09:00 Registration

09:25 Welcome

09:30 Indication and Technique CTC

10:30 Coffee break

10:45 Introduction to the software

11:00 How to read a case

11:15 Case reading

12:45 lunch

13:30 Polyp prevalence, morphology and
natural history

14:00 Case reading

15:30 Coffee break

15:45 Pitfalls in CTC

16:15 Case reading

17:30 End of day 1

Friday 5 November 2021

08:30 Center Lumen Line

09:00 Patient Preparation Protocols

09:15 Case reading

10:30 Coffee break

10:45 Polyps and colorectal cancer: the
gastroenterologist's view

11:30 Screening: the Italian experience

12.00 Case reading with the gastroenterologist

12:45 Lunch

13:30 Residents corner

14:15 Case reading

15:45 Coffee break

16:00 CTC, the surgeon's view

16:30 Case reading with the surgeon

17:00 End of day 2

Drinks and finger food

Saturday 6 November 2021

09:00 Case reading

10:30 Coffee break

10:45 Low dose CTC and new techniques

11:15 Case reading

12:30 Lunch

13:15 Diverticulosis and Diverticulitis

13:45 Case reading

14:55 Closing remarks

15:00 End of the course
