CENTRE FOR BIOMEDICAL ETHICS AND LAW

The Centre for Biomedical Ethics and Law consists of a number of experts in medical ethics and medical law. The Centre aspires to provide education, research and scientific and societal service in medical ethics and law. The Centre was created in 1986 and celebrated in 2016 its 30th anniversary (www.cbmer.be).

BACKGROUND AND OBJECTIVES

Since the beginning of the 1980s, nursing ethics has developed to such a degree that it is now considered a fixture within applied ethics. The specific positions occupied within health care by nurses, their expertise and their responsibilities all result in them being confronted by ethically sensitive issues.

The objective of the 9th edition of the course is to foster exchanges on foundational and methodological approaches as well as on contemporary and educational issues in nursing ethics. More specifically, the aims of this course are:

- (1) To analyse *fundamental notions* that are being discussed in the field of nursing ethics, namely various notions of care, moral practice, the human person, vulnerability, dignity, and trust. As such, extensive understanding will be provided into the ethical and philosophical foundations of the practice of nursing.
- (2) To educate participants on a range of ethical topics that are predominant in the *contemporary debate* in nursing ethics, namely, nursing ethics perspectives on end-of-life care and on care for older adults. These topics will be explored from a philosophical-ethical perspective as well as from an empirical-ethical perspective.
- (3) To introduce participants into *methodological and educational aspects* of nursing ethics.
- (4) To establish exchange among national and international experts with respect to new developments in nursing ethics from an international perspective.

FORMAT

This course works from an interdisciplinary (philosophical, theological, nursing, clinical-ethical) perspective. During the course, national and international experts will give presentations on various topics in the domain of nursing ethics. There will be time for intensive discussions. The language of instruction will be English.

PARTICIPANTS

The course is of interest to participants from diverse professional backgrounds, such as nursing, medicine, philosophy and theology, health care administration, and is open to health care workers, people from universities and university colleges, members of ethics committees, and PhD students undertaking courses of study in these areas.

The reading materials will be distributed electronically before the start of the intensive course.

PROGRAMME

Tuesday, 7 December 2021
Foundational Issues

9h00-9h30: Welcome

CATHOLIC UNIVERSITY OF LEUVEN

KU Leuven is the oldest university of the Low Countries. Founded in 1425, KU Leuven has been a center of learning for almost six centuries. It grew into one of the largest and most renowned universities in Europe. As a highly ranked university (1st in the Reuters World Ranking of Most Innovative Universities 2020, and 45th in the Times Higher Education World University Ranking 2020) with such a rich history, KU Leuven has its own dynamic international dimension.

At present, over 60.057 students study at KU Leuven, around 12.421 of whom are international students (over 150 different nationalities).

To this day, KU Leuven thrives as a bustling student town with a strong international allure, where various cultures meet and experiences are exchanged.
