

	GIEQs II - Day I - Plenary	GIEQs II - Day 1 - Complex
08:00 - 09:00	Colonoscopy Theory Reduced discomfort. Maximum visualisation.	Distal Bile Duct Strictures An Evidence-Based Algorithm for Assessment and Management
09:00 - 10:00	Colonoscopy Practical Loops, Patient Position and Proactive Colonoscopy	EUS for Cancer Staging Exploring the Value of Monochrome Imaging
Morning Tea		
10:15 - 11:15	Polypectomy Practice - Time to Cool Down? Hot versus Cold Snare Polypectomy	Proximal Bile Duct Strictures An Evidence-Based Algorithm for Assessment and Management
11:15 - 12:15	Diminutive Polypectomy Best Practice Cold Snare Polypectomy for Polyps < 10mm	Artificial Intelligence in Endoscopy Prime-time Ready or just a Useful Distraction?
Lunch		
13:00 - 14:00	The Search for Submucosal Invasion Hone your Blink Reflex	Common Difficulties in Gastroscopy And how to Tackle Them Properly
14:00 - 15:00	Endoscopic Imaging in the Colon Paris +3, Demarcation Zone	Treatment of Sphincters Everyday problems, with endoscopic solutions
Afternoon Tea		
15:15 - 16:15	IBD in Endoscopy Pushing the Boundaries of the Endoscopy-Microscopy Interface	Management of Luminal Strictures When and how to dilate or stent, a practical approach.
16:15 - 17:15	The Forgotten bits of IBD Endoscopy How To Go the Extra Mile	Duodenal Polyps and Ampullomas Detection, Characterisation and Relevance to Everyday Practice
17:15 - 17:30	Summary and Close Summary of the Plenary session of day 1	Summary and Close Summary of the Complex session of day 1

	GIEQs II - Day 2 - Plenary	GIEQs II - Day 2 - Complex
08:00 - 09:00	Upper GI Imaging Real-life Examples. Next-Level Treatment Planning.	ERCP for The Trainee A challenge for the trainers
09:00 - 10:00	Techniques in GI Bleeding Preventing Re-bleeding. Correct Technique First Time.	Endoscopic Management of Pancreatitis Peripancreatic collections, pancreatic strictures and stones
Morning Tea		
10:15 - 11:15	Polypectomy Theory The Scientific Backbone of Everyday Polypectomy	Biliary drainage in case of failed ERCP or inaccessible papila A practical algorithm
11:15 - 12:15	Intermediate Polypectomy Upskilling your 10-20mm Polypectomy with Evidence	Therapeutic EUS An emerging endoscopic subarea
Lunch		
13:00 - 14:00	Large Polypectomy Complex EMR	Hepatology in Endoscopy Advances in the Hepato-Endoscopic Interface
14:00 - 15:00	What to do when piecemeal EMR is not Sufficient for my Patient? Evidence Based Alternatives	Training the Endoscopic Trainer You Can Do It, But Can You Explain Why?
Afternoon Tea		
15:15 - 16:15	After Resection and Management of Complications How to Ensure Safe Attempts at Polypectomy	Deconstructed Endoscopy Technique for Trainees Based on videos and an interactive discussion, deconstruction shall be ultimate.
16:15 - 17:15	Surveillance after Endoscopic Resection in the Colon	Difficult / Previously Failed Colonoscopy How to Solve The Impossible
17:15 - 17:30	Summary and Close Summary of the Plenary session of day 2	Summary and Close Summary of the Complex session of day 2

Programme subject to change without notice.
