Who is responsible for data processing?

Xaurum B.V., established in the Netherlands city Breda, is responsible for data processing as described in this privacy statement.

When using the pe-online app, some data is required for accessing you online portfolio. This is the key which has been generated when your device was connected to your own portfolio. Based on this key authentication will occur.

Inside the PE-online app you have access to all personal data which is provided via the PE-online website.

Sharing your data?

As PE-online is an administrative system, commissioned by your professional organization, all data will be shared with them, exactly as it happens on the PE-online website. The professional organization is also the owner of all the data they collect.

Xaurum doesn't collect any data, except statistics, for their own behalf.

Storing data?

Data will be stored within the European Economic Area ("EEA").

Securing data?

Xaurum B.V. has higly trained specialists, internal and external, to test and improve security.
